Two Shooting Incidents Reported At 'Brick Curtain' Within 24 Hours

BERLIN (AP)—Communist police fired across Berlin's brick curtain today, the second such incident in less than 24 hours, adding to the trigger tension of this divided city.

Ford, UAW Set Goal for Car Production

Negotiators Want Work to Start by Beginning of Week

DETROIT (AP) — Ford Motor Co. and the United Auto Workers Union planned to keep the phone lines humming today in a concerted effort to get the company back into car production by the first of next week.

Their top negotiators decided Wednesday the best way to end the strike that shut down Ford plants from coast to coast Tuesday was to give priority to effecting settlements on working conditions at individual plants.

More Discussion

UAW President Walter P. Reuther and Ford's vice president for labor relations, Malcolm L. Denise, postponed further discussions on a national contract on working conditions until 2 p.m. Friday.

Denise agreed with Reuther's suggestion the time could be spent more profitably by the union and the company setting up direct phone contacts with the plants to clear away the roadblocks of local disputes.

About half of the union's 85 bargaining units have completed settlements with plant managers on problems as washup time, parking lot and cafeteria facilities, protective clothing, overtime rotation, choice of hours and seniority.

Failure to settle local problems resulted in an outbreak of strikes that crippled General Motors Corp. for two weeks last month before a final settlement was reached with the UAW.

Still to be settled at the national level are the union's non-economic demands. These include production standards, grievance procedure, skilled trades problems and sub-contracting of work the union insists should be done by its members.

Atlas Missile Makes 9,000 Mile Journey

CAPE CANAVERAL, Fla. (AP) — A blockbuster Atlas missile rumbled nearly 9,000 miles from Cape Canaveral to the Indian Ocean today to determine how its nose cone withstands the punishing forces of reentry.

The ocean-spanning rocket raced east of the Brazilian coast and south of the African tip on the over-water flight that lasted about 50 minutes and ended when the nose cone plunged into a target area about 700 miles southeast of Capetown, South Africa.

The Air Force announced the successful flight.

Boy Pulls Brake To Save Lives of 36 on School Bus

WEST SPRINGFIELD, Mass. (AP) — A school bus driver collapsed at the wheel Wednesday but 10-year-old Steven Ecker saved 35 children aboard by pulling up the emergency brake.

The children, ranging in age from 6 to 11, were being driven home from King's Highway Elementary School.

The driver, Isaac Martin of West Springfield, slumped over the wheel as the bus approached Elm Street and King's Highway. He died before arrival at Providence Hospital, Holyoke.

Redlegs Beat Yankees, 6-2, To Even Series

Joey Jay Pitches 4-Hitter; Errors Costly for New York

NEW YORK (AP)—Cincinnati's towering Joey Jay stopped New York with a four-hitter and his teammates took advantage of miscues to beat the Yankees 6-2 and tie the 1961 World Series at 1-1 today.

Back-to-back singles by Elio Chacon and Eddie Kasko and catcher Elston Howard's passed ball manufactured what proved to be the winning run in the fifth inning. The third game is set for Saturday at Cincinnati.

Play-by-play of the second game:

FIRST INNING

REDS: Chacon flied to Berra. Kasko struck out. Pinson bounced out. Richardson to Skowron.

YANKEES: Richardson singled. Kubek forced Richardson. Kasko to Chacon. Maris forced Kubek. Chacon to Kasko. Chacon threw out Berra.

NO RUNS, ONE HIT, NO ERRORS, ONE LEFT.

SECOND INNING

REDS: Robinson popped to Kubek. Kubek threw out Coleman. Post singled. Freese struck out.

YANKEES: Blanchard popped to Kasko. Freese threw out Howard. Skowron walked. Boyer forced Skowron. Kasko to Chacon.

NO RUNS, NO HITS, NO ERRORS, ONE LEFT.

THIRD INNING

REDS: Terry threw out Edwards. Jay flied to Berra. Chacon walked. Kasko struck out.

YANKEES: Terry popped to Chacon. Richardson popped to Chacon. Kubek struck out.

NO RUNS, NO HITS, NO ERRORS, NONE LEFT.

FOURTH INNING

REDS: Pinson flied to Berra. Robinson's hard shot bounced off Boyer's chest for an error. Coleman.

Plunges to Death

The first incident occurred during a chase of two East German refugees across border rooftops. One refugee, crying "freedom," plunged to his death when he jumped five stories and missed a West Berlin fireman's net. The other refugee was captured by the East Germans and taken away.

As a result of the two incidents, Mayor Willy Brandt disclosed he was discussing with the Western powers the reinforcement of West Berlin police to make the borders secure. The shooting of the East.

Nelson Vetoes Simpler Tax Return Bill

Attorney General Ruled Measure Unconstitutional

MADISON (AP)—Gov. Gaylord Nelson today vetoed a Republican sponsored bill to simplify Wisconsin income tax returns, saying the attorney general held the measure unconstitutional.

In his veto message, Nelson cited an attorney general's opinion which said the bill would yield state authority to the federal government.

"It is an attempted delegation to federal authorities of the making and administration of state income tax determinations," Atty. Gen. John Reynolds said.

Doesn't Block Acts

Nelson said the "constitutional bar" to enactment of the measure did not preclude the Legislature, however, "from achieving the major objective of tax simplification, which is both laudable and in the public interest."

The Republican measure, in general terms, would have based state income tax returns on adjusted gross income and net taxable income as determined for federal income tax purpose.

British Treasury Cuts Bank Rates

LONDON (AP) — The British Treasury today cut the Bank of England rate half a point—from per cent to 6½ per cent.

The Bank of England rate sets the pattern for interest on loans throughout Britain.

Today's cut apparently reflects a belief in government circles that a mild easing of credit is in order.

Mao Called Great Man By 'Monty'

TORONTO (AP)—Field Marshal Viscount Montgomery says Red China's Mao Tse-tung is a "great guy—an uncommon man in an age of common men."

The British World War II commander arrived in Canada Wednesday night from a visit to Red China where he met the Communist leader and received a red carpet reception.

Montgomery, 73, told a news conference Western press reports that the Chinese are starving and have lost confidence in the Communist regime are "totally untrue."

The retired field marshal said he did not see a single case of malnutrition during his three-week visit to the Chinese mainland but saw "bags of it" in Hong Kong, the British crown colony filled with Chinese refugees.

Montgomery urged more Western trade with Communist China.

U.S. Position Finally Gets Across to Russia

Former California Gov. Goodwin J. Knight, left, presents his wife and Paul Mason, former state motor vehicle department director, to a press conference at Los Angeles Wednesday. Knight asserted they overheard J. Howard Edgerton offer him a choice of state jobs if he would abandon plans to run for governor. Knight said Edgerton was acting as representative of former Vice President Richard Nixon but Nixon, also a candidate for governor, has called the allegations false and libelous.

Kennedy, Gromyko Talks Indicate Understanding; Both Powers Worlds Apart

BY EDWIN A. LAHEY Chicago Daily News Service

WASHINGTON — The United States and the Soviet Union have at least uncocked their pistols. That is a reasonable deduction from the fact that President Kennedy is going to see Soviet Foreign Minister Andrei Gromyko in the cool of the afternoon Friday. The two keepers of the bomb are still far apart in their respective worlds.

Syrians Have Shaky Footing

Moderate Leaders Running Into Many Odd Dilemmas

Chicago Daily News Service

Freed from Gamal Abdel Nasser's dictatorship, Syria's moderate democratic government is finding shaky footing. Embarrassed by Communist support, unexpected delay by the United States in recognition and Nasser's efforts to ignite a counterrevolution among his Syrian followers make stability difficult for Premier Mamoun Kuzbari. Kuzbari's Moslem-Christian cabinet is in the weird position of being embraced by Communists as progressive, attacked by Nasser as reactionary and spurned by Nasser's renegade Syrian Socialists as "monopolistic."

The Communists, headed by their pragmatist leader Khalid Bakdash, have tried to compromise Kuzbari by hailing his victory over Nasser.

At best, the meeting between Mr. Kennedy and Gromyko could set up the background for real negotiations on the tensions that have gripped the world periodically for nearly three years, since Khrushchev first announced his six-month "ultimatum" about a peace treaty with East Germany. The points of friction between

Viet Cong May be Next Spot On Globe to Produce Trouble

Red Guerillas Determined to Get Control of South Asia Country

BY PETER LISAGOR Chicago Daily News Service

WASHINGTON — Mark down the words "Viet Cong." They represent the next explosive threat against the Free World and probably will compete for headline space with Berlin in the coming weeks.

The Viet Cong are communist guerrillas bent on seizing control in South Viet Nam, the divided country bequeathed to the Free World by the Indo China armistice of 1954.

In his talks with Soviet Foreign

Minister Andrei Gromyko tomorrow, President Kennedy conceivably could digress from Berlin for a moment to express American concern over stepped-up communist pressures in South Viet Nam.

The chief executive saw fit in his speech before the U.N. General Assembly on Sept. 25 to stress the current plight of the South Vietnamese.

"Under Attack" "South Viet Nam is already under attack," he declared, "sometimes by a single assassin, sometimes by a band of guerrillas, recently by full battalions."

He further noted that the rainy season was reaching an end, and that the communists were using Laos as a base for infiltrating South Viet Nam.

U.S. officials have become increasingly worried by the guerrilla attacks in full battalion strength. Their earlier technique had been to infiltrate in small numbers for hit-and-run raids.

But on Sept. 18, they revealed new tactics, according to reliable accounts, and attacked Phuoc Vinh, a provincial capital 60 miles north of Saigon, with a full battalion, with a second battalion in reserve.

In their surprise assault, they killed the provincial governor and some 60 loyal troops while making off with substantial military stores.

It was this attack that led President Ngo Dinh Diem to assert re-

Negroes March, 144 Arrested

McComb, Miss., Mass Booking Stems From School Expulsion

MCCOMB, Miss. (AP)—A civil rights demonstration on the City Hall steps resulted in the mass arrest of 144 Negro pupils and one white man.

The group — junior high and high school pupils — was protesting the expulsion from school of four Negroes Wednesday earlier in a chain store sit-in.

Police said several white men punched the lone white demonstrator before police rescued him. He was jailed "for his own protection," police said.

Marched, Spoke

Demonstrators marched with signs through the streets of this southwest Mississippi town and made speeches outside the City Hall.

Police said they booked all of them on breach of peace charges.

The Congress of Racial Equality at Jackson identified the white man as Bob Zellner, 22, of Atlanta. CORE said he is a field worker for the Student Nonviolent Coordinating Committee.

Police Chief George Guy said Zellner's assailants left before deputies could arrest them.

UW's Bowers Asked to Quit

Action Is Outgrowth Of Controversy Over Choice of Chairman

MADISON (AP) — Dean John Z. Bowers of the University of Wisconsin Medical School has been asked to resign as an outgrowth of a year-long controversy over the selection of a new chairman for the surgery department.

University President Dr. Conrad Elvehjem made the announcement in a statement issued Wednesday night after he had returned from a Chicago meeting.

Elvehjem said, "Two representatives of the university board of regents and I advised Dean Bowers that although he has made important contributions to the medical school, it would be in the best interests of the university and himself if he sought another position."

Bowers declined comment.

The statement by Elvehjem continued: "I regret the publication of various reports on recent developments in our medical school, for it was my hope, shared by the regents of the university, that Dean Bowers could be given an opportunity to seek a suitable position without the handicap of further public controversy."

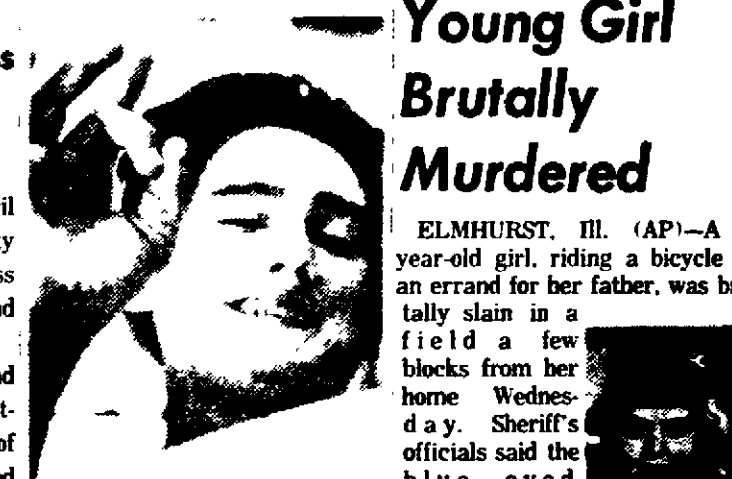

The Madison Capital Times said earlier the decision to ask Bowers' resignation was reached at an unofficial meeting of regents at Elvehjem's home Sept. 14.

Young Girl Brutally Murdered

ELMHURST, Ill. (AP)—A 7-year-old girl, riding a bicycle on an errand for her father, was brutally slain in a field a few blocks from her home Wednesday.

Sheriff's officials said the blue-eyed, blonde-haired girl, Yvonne Elliott, had been dragged from her bicycle.

The child's nude body, with her hands tied behind her back with a soiled rag and with another rag stuffed in her mouth, was found by her father, Edward Elliott, 27, a machine setter. The slayer had taken the girl's long-sleeved red shirt and knotted it tightly around her throat.

Go to Store Elliott had sent Yvonne to a store five blocks from their home in this Chicago suburb to get him some cigarettes.

When Yvonne had not returned from the store an hour after she left home, Elliott told deputies, he walked down the street and found her bicycle alongside a field of tall weeds. He ran home and telephoned his wife, Loretta, 24, who was at work. Then he and a neighbor set out with flashlights to search the field.

Group Named For Study of Election Costs

Committee Will Consider Whether To Use U. S. Funds

WASHINGTON (AP)—President Kennedy has named a nine-member commission to study whether the government should help finance the multi-million dollar campaign outlays of candidates for national office, act to cut the cost of campaigns or both.

Alexander Heard, dean of the graduate school, University of North Carolina, was named head of the commission. He is the author of "The Cost of Democracy," a book published last year which deals with campaign financing questions.

The other members are: V. O. Key, Cambridge, Mass. professor of government, Harvard.

Dan Kimball, Los Angeles, president of Aerojet - General Corp., former secretary of the navy.

He's Ex-Aide Named
Malcolm Moose, New York City, former administrative assistant under former President Dwight D. Eisenhower.

Paul Porter, Washington lawyer and former chairman of the Federal Communications Commission.

Neil Staebler, Ann Arbor, Mich. Democratic National committee-man for Michigan.

Walter N. Thayer, president of the New York Herald Tribune and former chairman of the United States Finance Committee of New York.

John Vorys, Columbus, Ohio, lawyer and former Republican member of congress.

James Worthing, Chicago, former vice president of Sears Roebuck Co. who was an assistant secretary of commerce in the Eisenhower administration.

The White House described the commission as a "temporary, nonpartisan, study group." It is to file recommendations with Kennedy next spring.

PET DOCTOR

By A. W. Moller, D.V.M.

Q. My Toy Fox Terrier's jaw was broken on both sides. Although this happened some time ago she still cannot chew. Metal pins put in at the hospital come out. What can I do? Teresa Bruns, New York City.

A. Jaw fractures in small breeds of dogs present unusually difficult surgical problems. It is hard to insert wires or screws tightly enough to hold these fragile bones while they heal. In some extreme cases I have resorted to taping the mouth shut for a few days while keeping the dog under sedation and feeding it through a vein. However, this is hard on the animal and quite expensive. I'm sure your veterinarian did all that he could and that your dog will enjoy life eating soft foods only. After all this time, I am sure there is no pain.

Rural Seymour Man Sent to Waupun for Pre-Sentence Probe

Anton Stimp, 26, route 2 Seymour, convicted Wednesday of taking indecent liberties with a 14-year-old girl was sent to Waupun for a pre-sentence investigation by the State Department of Public Welfare.

Stimp was arrested by Outagamie County Sheriff's officers Sept. 11 in the Town of Seymour. He admitted the charge before Municipal Judge Gustave J. Keller.

Openings Remain In Bridge Classes

KAUKAUNA — Registrations are still being accepted for adult bridge instructions to be presented by the recreation department, according to James Gertz, director.

Classes will be held from 7 to 9 p.m. on Wednesdays beginning Oct. 11 if sufficient students enroll, noted Gertz.

Registration for baton and dance classes closes Friday. Openings remaining in both classes, Gertz said.

Hunters Warned To Use Caution Near Utility Lines

Sheriff Robert Heinritz has re- minded hunters they should use care when shooting near public utility cables and wires.

Heinritz said birds gather on power lines in fall before flying south and hunters often shoot at them without considering that the bullet may damage the wires.

Sheriff's Lt. Jack Frenz said a 22 caliber bullet has damaged a three-inch cable near Dale. He said even a small caliber bullet can cause enough damage to knock out communications in a neighborhood. He said this could be extremely serious in case of emergency.

Heinritz added that if it is proven that the damage is intentional the penalties include up to five years imprisonment or \$1,000 fine or both.

No Rule or Regulation

One of the minor but vexing problems the Syrian revolt brings up is representation at the United Nations. When Syria and Egypt combined into the United Arab Republic several years ago, they asked for only one seat and one vote at the U.N., although both had been members.

There is no real precedent for a decision. When India and Pakistan divided into two countries, Sec. Gen. Tryvge Lie ruled that India would retain the seat but Pakistan had to apply for admission as a new nation. The Mali Federation split into Mali and Senegal a year ago but it had not been admitted to the U.N. so each nation was admitted individually later. The China struggle is one of ideology

rather than procedure. Iraq and Jordan demanded their two seats in the U.N. after they joined forces in 1958 but the overthrow of the Iraqi monarchy the same summer ended the case.

In the past, the secretariat has made the decision. But now there is no secretary-general and there may be strenuous opposition from Egypt if Syria demands a separate seat. To make the problem more difficult, the U.A.R. also is in the Security Council and Syria conceivably could protest Egyptian membership there.

Sometimes it seems that, for an organization supposed to bring peace and order to the world, the U.N. is woefully lacking in purely procedural formulas.

Student Project Brings a Law

Four medical technology students at Wisconsin State College, Eau Claire, were conducting a routine study of cottage cheese when their findings startled them. They called their professor's attention to a considerable amount of bacteria present in two varieties. Further study, encouraged by the Eau Claire health department, resulted in a city ordinance.

For six months the students, biology department staff members and the health department made a thorough study of cottage cheese produced in the Eau Claire area or for sale in Eau Claire markets. Following their report, the Eau Claire Health Board made its own check with certified technicians. The final evidence indicated a considerably higher bacteria count than was considered

healthy to consumers. Had anyone eaten some of the cottage cheese he might have come down with dysentery, diarrhea, food poisoning or typhoid fever, according to the account in the student newspaper.

The official regulation now requires cottage cheese be produced with Grade A milk and under Grade A conditions within six months. After that time, all cottage cheese not meeting the specifications will be barred from Eau Claire markets. The student findings are being studied by a committee of the Intra-State Milk Commission and state officials.

Here has been a practical application of the learning process to service, not only to consumers in the area, but to the producers who probably were not aware of some of the dangers of their product.

Count Your Blessings

Americans often are advised to count their blessings. Most Americans don't know where to start. They probably could learn something from Viktor Jaanimets, an Estonian citizen, who escaped from Soviet Premier Khrushchev's ship, the Baltika, last Oct. 10.

Jaanimets is having some difficulty with the American language but he is making progress. He has a job as a machinist which pays him \$100 a week. This enables him to live in a small apartment which costs \$17 a week, is modern and complete with such frills as electric refrigerator and radio. Since Jaanimets is a bachelor, he spends time with friends at a social and cultural club for Estonian-Americans.

But what he enjoys most is his freedom to come and go as he pleases. The only restriction on his freedom is that imposed by his friends who fear that he may be kidnapped by a Soviet agent. He now lives under an assumed name and hopes that even his landlord does not know his true identity. He keeps his address and place of employment secret

and tries to avoid striking up acquaintances with strangers in his relatively small circle of friends.

So far he has been reasonably free to do as he likes. About a month ago he purchased an automobile. He now is taking driving lessons. He reports that in the Soviet Union it would have taken from five to seven years to get a car after the application was filed. He was amazed to find that here all he had to do was walk in and buy one. In Russia there would be another prohibition — the price, which might run to several years' salary.

As for his little apartment, naturally he thinks it's wonderful because, as he says, "I never had a room of my own since the Russian occupation in 1940.

"You need a permit to get a room and I applied at Tallinn (which is the capital of Estonia). They told me to apply in Leningrad. In Leningrad they told me to apply in Tallinn."

What American, in counting his blessings, would think of mentioning those so precious to Jaanimets: "Just doing what you like, saying what you like, going where you like?"

California GOP Gets Christmas Spirit; Starts Announcing Early

and, after a short rest, he usually get from liberals. Now I just accept it.

But the record for pre-dating has just been broken by California's Republican aspirants for governorship, which will not be voted upon by the electorate until November of 1962. The rest of the country seems to be of the opinion that all campaigns could be shortened considerably without affecting the final decision.

But not this maverick state, where a football player once ate the length of the field in the wrong direction to give his opponents a touchdown and victory. He is not entered in the current melee, but the candidates appear to be devout followers of his philosophy.

Shooting Begins

Major Christopher of San Francisco apparently began the shooting war in an attack on Eugene McCarthy, Knight of the Bull, in the morning. McCarthy's position is known and several hundred protesters in the city are expected to be in the streets. But that was only a prelude.

Some days later, Dick Nixon made a famous announcement in the California capital of Sacramento, let alone with the state capital at Sacramento. Nixon, fighting for his life, naturally fired back and up north, Mayor Christopher launched another assault on Nixon's claims are made up of Knight-in-laws, Democratic regulars and Nelson Rockefeller

mercenaries. If there really is such an alliance, history will give it second place only to the Stalin-Hitler pact.

Republican Warfare

The other contenders, former Lieut. Gov. Powers and Joe Shell, the Republican minority leader, who has just been elected out of his home district by some of the dearest gettymandering of all time, are trying to stay out of this inter-party warfare. But their positions are nevertheless as dangerous as those of neutral countries adjacent to the place where Nikita is testing one of his super-bombs.

I certainly am not going to crawl out of my shelter to make any effort to assess the blame, but I can hear the shrieks and moans of the wounded and the dying, and I know if this holocaust doesn't end soon there won't be a Republican left to vote ever in the primaries, let alone the election. Where, oh where, is Linus Pauling? Why isn't Bertrand Russell here where we need him? Why is the Peace Corps going to Cambodia instead of doing its homework here? And what day has become of our final union, the United Nations?

This is an S.O.S. and it may be our last call. He's somewhere. (Copyright 1961)

Appleton Brewer Expresses His Opinion on Proposed Instant Beer

Editor, Post-Crescent:

I wish to take issue with your editorial on Instant Beer as it appeared on your editorial page of Thursday, Sept. 21, 1961.

Where you received your information I do not know. The taxing of the concentrate is not the issue, as all beer is taxed at the rate of \$9 per barrel by the Federal Government. This tax is paid on all beer sold by the brewery in addition to \$1 state tax. The issue is the labeling and advertising of the resulting product.

This process has not been perfected. It has been developed by the Union Carbide Company in conjunction with the Miller Brewing Company and in no other plants.

There is more to producing beer than the mere aging. Beer is brewed from barley malt, hops and an adjunct which usually is corn or rice and in our case it is corn. It then must be fermented before the aging process starts, after the aging it is filtered and carbonated before it is ready to be put in kegs, bottles and cans.

As the government regulations are written the beer would be shipped to a brewery owned by the brewery that did the concentrating, not to a distributor. Expensive machinery is needed to fill the bottles and cans.

A hearing has been held, not hearings. This lasted a day and a half and was held on March 21 and 22 then was adjourned until Sept. 6 and then postponed to Oct. 5.

The continuance of the hearing was granted at the request of the United States Brewers Ass'n., the Pennsylvania Brewers Ass'n., the New York Brewers Ass'n., and from the National Beer Wholesalers Ass'n. not the Brewers Ass'n. of America, which is an association of the small brewers of the country, and the International Brewery Workers Union as stated in your editorial.

The small brewers are in opposition to the marketing of the concentrate as it would eventually mean the end for a lot of small brewers and the consequent loss of jobs to a great many people.

There is no problem in the taxing as it would be the same as it now.

The largest saving due to the concentrating would be the freight saved by the large breweries.

There would be no assurance that the consumer would save anything. If it were not for the small brewers in business today the public would save very little. During World War II, some of the large breweries did contribute to the war effort by covering over with tail

draft beer entirely for the simple reason that packaged beer is more profitable.

Water is very important in the brewing of beer, but this water has to be treated water, and not all water is suitable for brewing. In order to have the same color, aroma and flavor this concentrate would need similar treated good water and the proper proportion of carbon dioxide and this would have to be done in a brewery owned by the brewery that did the concentration.

The brewers and the brewery workers would not be the only

losers, as these same brewers, their stockholders and employees add a lot to the economy of their respective communities.

The Geo. Walter Brewing Co., our local brewery spent over one million dollars in 1960. This included all taxes, labor, materials, supplies and services, and everything possible is bought in this area. In addition to this, our 48 employees and 90 stockholders also contribute much to this community.

Gomulka Hints at Unrest in Satellites

From the Montreal Gazette

A recent public speech by Wladyslaw Gomulka, First Secretary of the Polish Communist party, gives some indication of the unrest and apprehension which have been caused in Poland by the Berlin and German crisis.

Although the speech contained many contemptuous remarks, it seems to have been basically weak and defensive. It seems

to have been deliberately intended to appease Polish public opinion.

Mr. Gomulka admitted that there had been widespread "panic buying" — the purchase of items which would be scarce or unobtainable in the event of war. This, he said, was "disorganizing the market supply," and was the result of widespread "war hysteria" amongst the Polish people. Mr. Gomulka pro-

Natural Bridge Spans Pine River

100 YEARS AGO

Quoted from the Appleton Crescent for Oct. 12, 1861.

At the mouth of the west branch of the Pine River (Pine River Wis. area) is a great curiosity, a natural bridge. It is almost as wonderful as the one over Cedar Creek in Virginia.

Here a stream much larger than Cedar Creek is spanned by a bridge of rock and earth, the handwork of nature herself. The west branch of the Pine flows through a most beautiful and fertile valley, eastward until it meets the main stream when a high bluff seems to forbid the blending of their waters. But "where there is a will there is a way," and the branch finds an opening through the high bluff which skirts the western shore of Pine River, and their waters mingle and murmur on together toward the great "Fathoms of Rivers."

There is a natural tunnel, from 20 to 25 feet wide and 12 feet high, through a rocky hill of an altitude of 80 feet. The large breweries of the world

pines and foliated down to both streams with a dense growth of evergreen.

The bridge is wide enough for three teams to drive abreast. From its location, I have no doubt that a thoroughfare will at some future time be established along its romantic way.

Sufficient water passes under the natural bridge, even in the sultry month of July, to set a rolling and rumbling a dozen of the largest mills in the State.

Nelson Complicates Tax Negotiations

BY JOHN WYNGAARD

MADISON — When Gov. Nelson decided to bring Democratic legislative leaders and spokesmen into his conference with the Republican legislative whips about possible tax stalemate compromises the prospects for a workable settlement of the tax dispute lessened visibly.

Chances are that the Republicans, in accepting the governor's original proposal for such consultations, accepted it literally, without anticipating that they would be required to negotiate also with their Democratic legislative adversaries with whom they fought the most bitter battles in Wisconsin Tax history.

They had passed their bill without Democratic votes. They would have made it law without the backing of legislative Democrats, had they gotten the governor's approving signature. When he called for consultations, after the veto, they had a right to assume that they would be dealing with him, under all the circumstances that had been shown.

BUT NOW

But now the governor has brought to the conference table the very legislative Democratic leaders who spent months denouncing the measure into which the Republicans had incorporated all of the compro-

misses they could put through their own caucuses.

They may ask how Sen. man Molinaro, or Assemblyman Risser or the many others who organized the filibusters against the Republican bill can possibly retract anything they said, in the interests of a compromise.

No doubt the governor was compelled by the protocol of his political position to invite his Democratic legislative friends to be informed on a matter of such vital importance in partisan politics, and of such long-range consequence to the development of the state.

But the inference that they come to the conference table as full-fledged partners, as collaborators with him in any settlements that may be attempted with the Republicans, is equivalent to assuring that the peace talks will come to naught.

Sen. Moser could not erase, if he would, his long denunciation of the Republican bill as a conspiracy of the "fat cats." Other Democrats put their opposition in even more absolute terms, and announced that they intended to make the Republican tax bill the principal issue in their own reelection campaigns next year, whatever its outcome.

WHAT MUST BE

Aside from the ideological differences between the parties on the issue of a sales tax, on the one hand, and an endless increase in the income tax rates, it has become obvious that Gov. Nelson must rise above Democratic partisan considerations if there is to be any hope of a negotiated tax settlement.

His Democratic lieutenants cannot be of much help to him in the delicate situation in which he finds himself. Few of them tend to think in terms of the long-range. They are local politicians, concerned about their own neighborhoods — most of which are so strongly Democratic in voting behavior that they can win reelection whatever the outcome of the great tax debate. Most of them, moreover, want to campaign against the sales tax, whatever the state's fiscal requirements will ultimately dictate.

The governor's position is different. He won the election last year when his ticket generally was losing strength. Obviously he won some votes in the gubernatorial contest that were otherwise cast for Republicans, including Republican legislative candidates. His realization of that voting pattern no doubt has made him cautious, as in his refusal to date to condemn the sales tax alternative absolutely.

Yet if he must have the consent of the Democratic politicians in the legislature — or in the party organization at the Eau Claire convention — he will have no room for jockeying or compromise whatever.

Local Level Lawmen Must Apply Clincher

The federal government's new anti-crime laws put a long-needed squeeze on gambling operations conducted across state lines.

Trance for Space?

An expert on hypnosis says men may be put in a trance before they are put in a capsule and shot into space. They would, he said, wake up in time to make a landing.

Does this fellow think he's got something new?

Man has been hypnotized by women since time began and put into orbit without a capsule, too. Further, poor males have come out of the trance only to find it was too late to land.

Some Villages Can Change To Cities

Nelson Signs Law Enabling Form of Government Switch

MADISON (AP)—Gov. Gaylord Nelson today signed a bill empowering villages eligible to become cities to change directly to the city manager form of government.

Previously, new cities could organize only under the council-mayor form of government and reorganization was necessary to adopt the city manager plan.

The governor said eligible villages having village managers were especially interested in the act since it will permit them to continue operations under the same management.

Educational Costs
Also signed was a bill appropriating \$25,000 a year to finance the educational costs of mentally handicapped foster children attending elementary schools. Such costs had been borne entirely by the local school district.

Health Bills
The governor Tuesday acted on two bills affecting local public health organization and responsibilities.

One of the measures, requiring more intensive county public health programs and eliminating the 1,700 town health officers, was signed. The other would have permitted municipalities to withdraw from fulltime county health departments by creating public health departments of their own. It was vetoed.

Nelson said the vetoed measure would have reversed "the limited progress Wisconsin has made in local public health programs."

"Public health problems do not respect the boundaries of cities, villages and towns," Nelson's veto message said, "and it would be difficult at best for individual municipalities to provide the service which a full-scale county health department can provide."

Nelson Signs Bill to Help 17 Counties

New Law Enables Securing Federal Redevelopment Aid

MADISON (AP) — A bill designed to help 17 northern Wisconsin counties and five Indian reservations get federal rehabilitation and redevelopment aid was signed into law Tuesday by Gov. Gaylord Nelson.

The measure appropriates \$15,000 to the Department of Resource Development. The department will work with the communities in preparing plans and projects which will qualify them for federal aid. The areas must get state and federal approval of their programs before federal aid can be provided. The projects are aimed at creating permanent job opportunities.

The counties are Ashland, Bayfield, Burnett, Douglas, Florence, Forest, Iron, Langlade, Lincoln, Marinette, Oneida, Price, Rusk, Sawyer, Taylor, Vilas and Washburn.

Indian Reservations
The reservations are the Bad River, La Court Oreilles, Lac Du Flambeau, Red Cliff and St. Croix. They are in Ashland, Bayfield, Burnett, Iron, Oneida, Polk, Sawyer and Vilas counties.

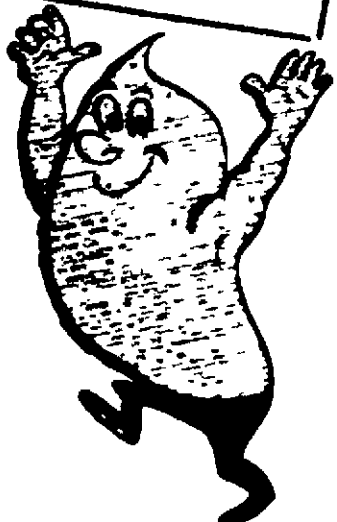

The governor also signed a bill to change the formula for allotment of funds for county trunk and state trunk highways. The aids will be allocated 60 per cent on the basis of vehicle registration and 40 per cent on the basis of highway mileage.

UW President Notes Serious Space Problem

Growth Outpaces
Building; Saturday,
Night Classes Result

Post-Crescent Madison Bureau

MADISON, Wis. — University of Wisconsin students and professors, crowded in their campus environment as never before, are getting accustomed to the idea of night-time and Saturday class schedules.

Elvehjem

Moreover, President C. A. Elvehjem warned the faculty in its first meeting since the start of the fall term, the space problem at the big school will "probably get worse before it gets much better."

The University's growth in student enrollment and employed teachers and assistants has out-paced the construction of additional classrooms, laboratories and other buildings, although about \$19,000,000 worth of new structures are now underway or have been completed for this fall's use and planning is well underway for a generous \$37,000,000 more.

The University head acknowledged that some faculty members are unhappy about the extension of their working days to accommodate the rise in student loads. But there is no alternative, he said, until the space situation is relieved during the next several years.

Once the University campus was a quiet place after sunset and on Saturdays. Today the campus is thronged at those times to only a slightly lesser degree than during the day-time hours of the rest of the week.

The University's space utilization, moreover, has had closer attention from state legislators and state financial administrators during recent years because of the enormous building appropriation demands. Elvehjem reported to his faculty that classroom utilization on the Madison campus today is more intensive than ever in the school's history.

The president reported that the retention of faculty has been better than expected, in spite of more vigorous recruiting by sister institutions, and urged professors to spend more time helping their teaching assistants, who have been employed in larger numbers in recent terms.

Fire Chief at Milwaukee Dies Of Heart Attack

MILWAUKEE (AP)—Fire Chief Edward B. McCabe 46, who was appointed head of the department two years ago, died Wednesday of a heart attack.

McCabe was stricken and died at Lanesboro Minn. as he returned by automobile from Las Vegas, Nev., where he had attended a convention. Traveling with the chief were his wife and Deputy Fire Chief Herman Schwengel and Mrs. Schwengel. Lanesboro is about 30 miles west of La Crosse, Wis.

McCabe was named chief in September 1959, and at the age of 44 was the youngest man named to the post. He had been with the department 20 years when he was named chief.

The chief came from a family of firefighters. His father, Frank, was a fireman before McCabe was born. A printer, Franklin, is with the department.

Other survivors include the widow, Irene, and son and daughter who were in school here when their father died.

Funeral arrangements have not been completed.

U. S. Attorney Charged With Tax Delinquency

MADISON, Wis. (U. S. AP)—George F. Rapp was named Wednesday in a state warrant setting his \$100,000 income tax delinquency at \$100.

The warrant was filed with the clerk of the Dane County Circuit Court by Judge F. Karp, state attorney general.

Rapp's office said he was in Wisconsin on business Wednesday. He could not be reached immediately for comment.

An associate of former President F. D. Roosevelt, Rapp has been in Wisconsin for the past several years, since 1953.

A state tax warrant represents an official order of personal property and is part of a civil rather than a criminal action.

Life Savings Returned to Couple by FBI

WASHINGTON (AP)—The life savings of an elderly Washington couple went from approximately zero to about \$16,900 today.

The FBI performed the simple and pleasant task of returning, on behalf of Stockholm police, \$16,900 to Mr. and Mrs. Knut Oscar Ahlbers. They plan to use the money to buy a home in Sweden.

Ahlbers, 76, a native of Sweden and a music teacher here for many years, and his 66-year-old wife traveled to Sweden last March with the idea of purchasing a permanent home. Each has lived in several countries.

Mrs. Ahlbers returned to the United States in April, leaving Ahlbers to negotiate for the home. While resting in a park in Stockholm Ahlbers was accosted by two thieves who took from him a leather case containing the \$16,900 in American money plus 26,000 kroner (\$2,000).

In June, Ahlbers returned to the United States, apparently believing there was little hope the money would be recovered. The Ahlbers said the money represented their life savings.

Viet Cong May be New Trouble Spot

CONTINUED FROM PAGE 1

cently that a full-scale war was developing in his country.

If the Diem regime begins to crumble under these blows, the United States will be directly involved, not only because it is a member of the Southeast Asian Treaty Organization.

Vice President Lyndon Johnson, touring Southeast Asia after the Laotian crisis subsided, virtually assured the South Vietnamese that the United States would prop them up, by direct intervention if necessary.

If the commitment was not total, it was at least so strongly implied that the impression left, both here and in Asia, was that Washington would intervene against the Viet Cong in a showdown.

Boosted Aid
The United States has since accelerated its military aid to the Saigon government, laying emphasis on the development of counter-guerrilla forces. The government forces have scored some recent successes against the guerrilla tactics — until the switch in tactics by the Viet Cong.

Saigon reports now indicate that the Viet Cong guerrillas are now preparing for the kind of large-scale action President Diem warned about, and that as the rainy season draws to a close, they will begin their raids in force.

Unfortunately, the Viet Cong are reported to have made vast inroads into the civilian population of the south through non-military techniques. Political cadres have won over key villagers and persuaded many others that the Diem regime is corrupt, according to accounts here.

The Saigon government has fought back by sending teams into the villages with medical supplies and modest equipment to help improve farming conditions, sanitation and the general lot of the people. This, in the judgment of officials here, may account for the increase in Red activity.

Two Killed on State Highways

BY THE ASSOCIATED PRESS
The deaths of two persons in separate accidents have increased Wisconsin's 1961 traffic toll to 661, compared with 627 one year ago.

Robert Wagner, 25, of Route 1, La Crosse, was injured fatally Wednesday night when his car overturned several times after leaving Highway 14 about six miles southeast of La Crosse. He was alone in the vehicle.

Franklin Juvette, 24, of rural Holcombe, was injured fatally Wednesday when his dump truck overturned after leaving a Chipewa County road about three miles north of Cornell.

breaking point in Southeast Asia. Right now it has reached the critical stage in Laos and South Vietnam.

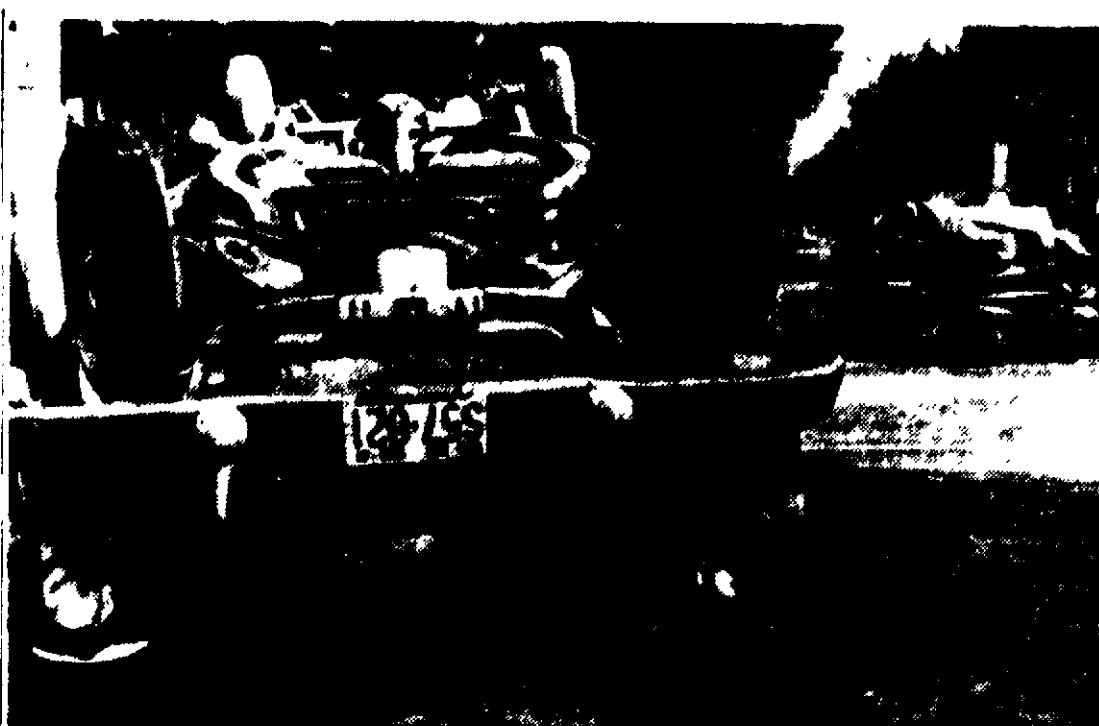

The Western world, for its part, has been quietly building the presence against the Soviet bloc with a West German Republic that becomes a more formidable military nation each year.

The "revengism," or the desire of the Germans to regain the Eastern territories now under the Polish flag, has more than anything else increased the nervousness behind the Iron Curtain.

Any serious bargaining with the Soviet Union, if it were to reduce the pressure against our weaker allies in Southeast Asia, would probably have to include some assurances that the potential military strength of Germany would be curbed.

President Kennedy and Gromyko, in their respective speeches before the General Assembly last week, set up a number of pegs upon which bargaining would be possible on specific issues, before the big question of reciprocal pressures would be discussed.

These issues include a ban on nuclear tests, a new start on disarmament agreements, solution of the Berlin "access" problem, and a settlement of the dispute over the administrative authority of the Secretary General of the U.N.

A Milwaukee Policeman, Russell H. Dunn, sent to investigate this accident found his wife inside the car at left. She suffered internal injuries and a passenger was hurt. So was the driver of the other car.

Police Exchange Fire Across Berlin Border

CONTINUED FROM PAGE 1

German policeman was expected to raise a diplomatic storm.

West Berlin police gave this account of today's incident:

Vopos, Communist police, threw rocks across the wall into West Berlin. One rock smashed the windshield of a truck on the road. A police patrol car was called, and an officer went up to the wall and called out to the Vopos to stop throwing rocks.

Vopo Officer
A Vopo officer approached the wall, aimed his submachine gun, and shouted, "Go back." Then the Vopo fired at the police officer.

The bullet missed, and police on both sides drew back.

The two shootings were the most serious since the Communists began erecting their wall of barbed wire and concrete blocks and that they were entitled to shoot back.

Five West Berlin policemen, he said, fired 24 shots and one of the bullets hit a Communist policeman, who was dragged away by his comrades.

Heat Up Battle
The shooting incident threatened to heat up the battle of the barricades, waged largely on a propaganda level since the Communists cut Berlin in two with a concrete wall Aug. 13.

As occupying powers the United States, Britain and France hold responsibility for any actions by the West Berliners.

Gen. Lucius Clay, President Kennedy's personal envoy to West Berlin, told a group of visiting American newsmen Wednesday: "In my many years of experience with the Berlin problem, I have never known our government to be as determined as it is now to defend the freedom of Berlin."

Clay is highly respected by West Berliners as the commander who broke the 1948-49 Soviet largest wine marketing organization, died Wednesday after a long illness.

on the flat roof of a building in Bernauerstrasse — the border street where many East Germans have escaped by leaping from buildings into West Berlin.

Fire Pistols
Communist police spotted the two and ran after them, firing pistols and submachine guns.

Trapped, the two fugitives ran back and forth shouting "help, which took the women and the driver of the other car involved in the crash to a hospital.

Mrs. Dunn suffered internal injuries, Mrs. Fosdick broken ribs, Joseph Waxer, 48, who was alone in the other car, was treated for a back injury.

Dunn was given the rest of the day off to be with his wife.

Ship Aground Off California Coast

SAN FRANCISCO (AP) — A commercial ship resumes efforts today to refloat a 108-foot San Diego tuna clipper grounded 100 miles north of San Francisco yesterday.

The vessel, Star of the Sea, owned by Joseph J. Silva of San Diego, stuck fast in heavy fog off a Point Arena sand bar. It was returning home after a nine-week cruise with a 140-ton tuna catch valued at \$40,000 to \$50,000.

Capt. Andrew Ander and the crew were taken safely ashore in Coast Guard patrol boats. Small boats removed the cargo of fish to a private dock. The coast guard abandoned an attempt to refloat the clipper last night because of rough seas.

would contact him on Nixon's behalf, and that Edgerton later offered him, Knight, any state job he wanted—up to chief justice of California's Supreme Court—if he would withdraw.

Knight had made the charges before—but had not identified Edgerton until Wednesday's news conference. He also presented to newsmen his wife Virginia and Sacramento attorney Paul Mason, Knight's former state motor vehicle director. Both said they overheard the Sept. 8 telephone call when the alleged offer was made.

Knight gave this version of the sequence of events leading to the Sept. 8 phone call:

June 20, 1961—Knight met Nixon at a Los Angeles reception.

Nixon said: "I still want to have a talk with you."

July 18 or 19—Edgerton phoned Knight, said Nixon had asked Edgerton to talk with Knight about Knight's plans.

July 29 — Knight and Nixon talked briefly. Nixon said: "You will be hearing from Howard Edgerton very soon."

Sometime later—Edgerton invited Knight to lunch with him Aug. 3. Edgerton told Knight that Nixon doesn't want to run. Knight repeated he'll run.

Aug. 7—Knight, Nixon and Edgerton met at Nixon's home. Nixon said he doesn't want to run for governor, believes Knight could be elected, says he will endorse him. Nixon said he'll communicate with Knight thereafter only through Edgerton.

Sept. 7—Edgerton tried to call Knight, who was in Sacramento, but could not reach him.

Sept. 8—Knight returned Edgerton's call, got alleged offer, signaled his wife and Mason to listen in on the phone conversation. Edgerton, a former Knight sup-

Syrian Overthrow of Egypt Reflects Trend

Damascus Resented Rule by Nasser's Interlopers; Favored Own Nationals

BY JOSEPH ALSOP

WASHINGTON — The room was eventful. It is nothing less, in truth, than the first serious pointer to the next phase of the nationalist revolution that has been going on all over the world. With only one or two partial exceptions like India this nationalist revolution has had much the same basic characteristics in all the countries which it has engulfed and liberated. There is always the same nationalist propaganda, high-sounding but ultimately reducible to the slogan "Kick the dirty foreigners out!" There is always a "charismatic leader" as the high thinkers phrase it, meaning one who leads by stirring the emotions and fanning the passions of his followers. And there are always the same mobs, gripped by the same paroxysms of passion fanned by the time this correspondent saw Akram Hourani, leader of the Baath party of Syria, master of the mob in Damascus, made his visitor forget his surroundings. He was fervent, electric, menacing, half-convinced, and altogether impressive.

That was before Hourani and his ally, the master of the Syrian secret police, Col. Abdel Hamid Serraj, had organized their coup that handed Syria over to Egypt's Gamal Nasser. The next time this correspondent saw Akram Hourani was just after the now disrupted union of Syria with Egypt.

On this occasion the room was vast, cavernous, and richly decorated as befitted the office of the new vice president of the newly united Arab Republic. But in his new office in one of the old palaces in Cairo, Akram Hourani was pale, uneasy, oddly shrunken and about as impressive as a dismissed appointed rug peddler.

No Longer Master

The former master of the Damascus mob had ceased to be master of anything at all in Cairo.

where his ex hero Nasser was the absolute ruler and dictator. For this very reason not really long after this second meeting Hourani angrily departed from the vice presidency of the U.A.R. and retreated into total obscurity in a Syrian provincial town.

At a much later date the story of Hourani also became the story of the absolute ruler and dictator. From the moment of the union of Syria with Egypt Nasser trusted no Syrian ed with any authority whatever in Syria or elsewhere except the hard-faced Syrian police chief. Then not long ago he ceased to trust Serraj. And when Serraj left, Egypt Nasser trusted no Syrian ed with any authority whatever in Syria or elsewhere except the hard-faced Syrian police chief. Then not long ago he ceased to trust Serraj. And when Serraj left, Egypt Nasser trusted no Syrian ed with any authority whatever in Syria or elsewhere except the hard-faced Syrian police chief.

It is important to understand the background of the Syrian revolt have been growing more tepid, and the cold processes of thought have begun to be used again. Furthermore, Nasser's problems in Egypt will be vastly intensified by the sudden failure of his charisma in Syria.

The trouble is that kicking out the duty foreigners does not help much to reduce the birthrate, or to organize a new, well rooted mode of national life.

Great Northern To Enter Coated Paper Field Soon

Great Northern Paper Co. directors have authorized spending \$5 million to \$6 million to enter the coated paper field in 1962. The company will build an extensive new, well rooted mode of national life.

(Copyright, 1961)

1962 quarter, an announcement papers "primarily for publication said Paper stock for the coated purposes." The company said the move is a further diversification step since 1958, newsprint has declined from about 85 per cent of total volume to 70 per cent and this year is about 75 per cent. M. C. McDonald, president, estimated the company expects to produce 100,000 tons of coated paper in 1962. The company will build an extensive new, well rooted mode of national life.

Thursday, October 5, 1961 Appleton Post-Crescent A10 deposited on the surface, making for a day in the 4th Representative District in a special election Oct. 26. There are no registered Republicans among the 680 voters. No Republican candidate has been named to oppose Henry E. Scott, the Democratic nominee. The three men will be at the polls to make sure any one who wants to cast a Republican write-in ballot may do so.

Election Board Looks Hard for Republicans

WOONSOCKET, R.I. (AP)—Three registered voters with no political designation were named Tuesday by the Board of Canvassers, in Registration to be Republicans, in ballot may do so.

Four Lawrence Seniors Do Research Work

\$800 Social Science Grants Cover Travel, Summer Projects

Four Lawrence College seniors devoted their final summer vacations to research projects underwritten by the Social Science Research Council.

The four grants, each for \$800, paid expenses for summer trips to Boston, Mass., for Janet Anson; to Washington, D.C., for Alexander Wilde; and to Palo Alto, Calif., for Nancy Thalhofer. The fourth grantee, Edward Vraalstad, was able to do his work at home.

More important than the travel expenses, the grants replaced potential summer earnings for the students.

Miss Anson, whose home is in Gillett, spent her vacation in the libraries of Harvard, Radcliffe, and Boston University, which contains an African Studies collection. An anthropology major, her research was a comparative study of British colonial policies in Nigeria and Belgian policies in the Congo. This served as background for an analysis of the current American policy toward black Africa. Miss Anson's interest in the emerging African nations was stimulated by a conference she attended at Green Lake last year, sponsored jointly by the American Assembly and Lawrence College.

Alexander Wilde worked at his Wauwatosa home and in the nation's capitol on a project evaluating the Legislative Reorganization Act of 1946, which was considered a major step toward efficiency in government and clarifying relationships between departments. He studied the effect of the act on subsequent growth in the framework of government. He supplemented his study of the Congressional Record and other documents with personal interviews with legislators.

search in government have a ready stimulus in their family backgrounds: Wilde is the grandson of Wisconsin's senior Sen. Alexander Wiley, and Edward Vraalstad of Mount, Minn., is the great-nephew of the late author of the Volstead Act of 1919, which enforced the unpopular 18th amendment. Vraalstad and Volstead are variations of the same surname.

Vraalstad's project was a study of the problems of coalition formation and manipulation, using the passage of the Volstead Act as his example. He had access to his great-uncle's records, and supplemented them with the files of the Minneapolis public library. The study included an investigation of two interest groups which were instrumental in the passage of the Volstead Act — the Anti-Saloon League and the Women's Christian Temperance Union.

Miss Thalhofer, whose home is in Oshkosh, studied more than 250 experiments recorded in psychological journals in the libraries at the University of Chicago and Stanford, to tabulate data on the different aspects of conformity. She has organized this data in the form of diagrams.

Stocks Make Sharp Rise In Market

NEW YORK (AP) — With rails heavily traded, the stock market made another sharp advance early this afternoon in active dealings.

The Associated Press average of 60 stocks at noon was up 1.40 to 257.00, equaling its historic closing high reached Aug. 22. The industrials were up 1.70, rails up .80 and utilities up 1.00.

As the rally ran into its second session, however, some profit taking was apparent around midday. Key rails and industrials were among the casualties, especially in Wednesday and early today. Advances of fractions to a point or more predominated as the session wore on.

Steels, retails, chemicals, tobacco, electrical equipments, aircrafts and utilities continued higher. Motors turned mixed after an early spurt.

The Dow Jones industrial average at noon was up 3.36 to 708.67. The rail component rose .94 to 130.79.

Prices on the American Stock Exchange moved generally higher in moderate trading.

Railroad bonds were ahead as corporate bonds resumed the uptrend. U.S. government bonds advanced, helped by news of the cut in the British bank rate.

Winnebago County Home Trustees Name Acting Superintendent

OSHKOSH — Elmer Erickson has been designated acting superintendent of Pleasant Acres as well as the Winnebago County Hospital and farm until a new superintendent is named to succeed Clarence Ward who is retiring as of Oct. 30.

Erickson has been a supervisor in the men's section of the county hospital where he has been employed for 6½ years.

Application for the superintendent's position are now being accepted by the hospital and home trustees.

Charles Armstrong, Secured by Ropes, pursues the lofty job of scrubbing the gold plated dome of Nebraska's capitol tower, some 400 feet above street level. The soap and water cleaning is the first to be given the dome since it was completed 29 years ago. Armstrong, normally a photographer with the State Department of Roads, volunteered for the assignment. Overlooking the operation is the bronze statue of The Sower.

Man to Repay Amount Of Worthless Checks

OSHKOSH—Raymond Bowhody Sr., 45, 7 Reinke court, Appleton, was placed on checks.

probation for a year to Bowhody cashed four worth the State Department of Public less checks in Winnebago County Welfare by Municipal Judge Arn in February and March of 1960 to old J. Cane for passing worthless taling \$119. He also must make restitution for the checks.

Democrats Indifferent To Luxury Tax Idea Nelson Asks Tax Compromise

Doubtful if Party Lieutenants Will Support Nelson's Proposal

Says Men in Both Parties are Blocking Program

BY JOHN WYNGAARD
Post-Crescent Staff Writer

MADISON—Democrats in the state legislature have responded indifferently to Democratic Gov. Nelson's suggestion for a luxury tax alternative to the Republican sales tax method of state tax revision, it was relatively reported here.

This indicates that the governor may not have much backing from his party in the state legislature as he sits down at the conference table in the capitol today with a committee of Republican legislative chieftains, in an attempt to work out a settlement of the tax stalemate.

The governor sent out a trial balloon on the possibility of a tax on selected commodities that might be classified as non-necessities when he vetoed the original Republican bill. But he has not alluded to the subject since, probably because he got no encouragement from his legislative lieutenants.

The impression remains at the capitol that Nelson is more amenable to a settlement of the tax fight than are most of the other elements of his party. It remained doubtful that he can successfully defy those partisan backers in dealing with the Republicans who have indicated that they will follow a hard line in their negotiations.

The Republican legislature is committed to the sales tax, with by Newell Birr, operator of the some exemptions, as a means laundromat.

of revising the state and local property tax structure.

It is highly improbable that they will accept any Nelson program that does not accept some kind of sales taxation. The gov. to make public any specific position. He has carefully refused statement prepared for presentation to be maneuvered into an absolute refusal to consider the sales tax.

Some of Nelson's advisors had hoped that by a system of selected excise taxes — based upon the long standing precedents of excises on tobacco, motor fuel, beer, liquor and other items — they could come to an agreement with the Republicans without repudiation of the historic anti-sales tax position of the party and the unequivocal denunciation of the Republican bill by Democratic legislators last summer.

But such a possibility is now doubtful, at best. When Nelson talked over the matter with legislative Democratic leaders recently, they agreed to divulge no details of their discussions—an apparent confirmation of their disagreement with the titular state party leader.

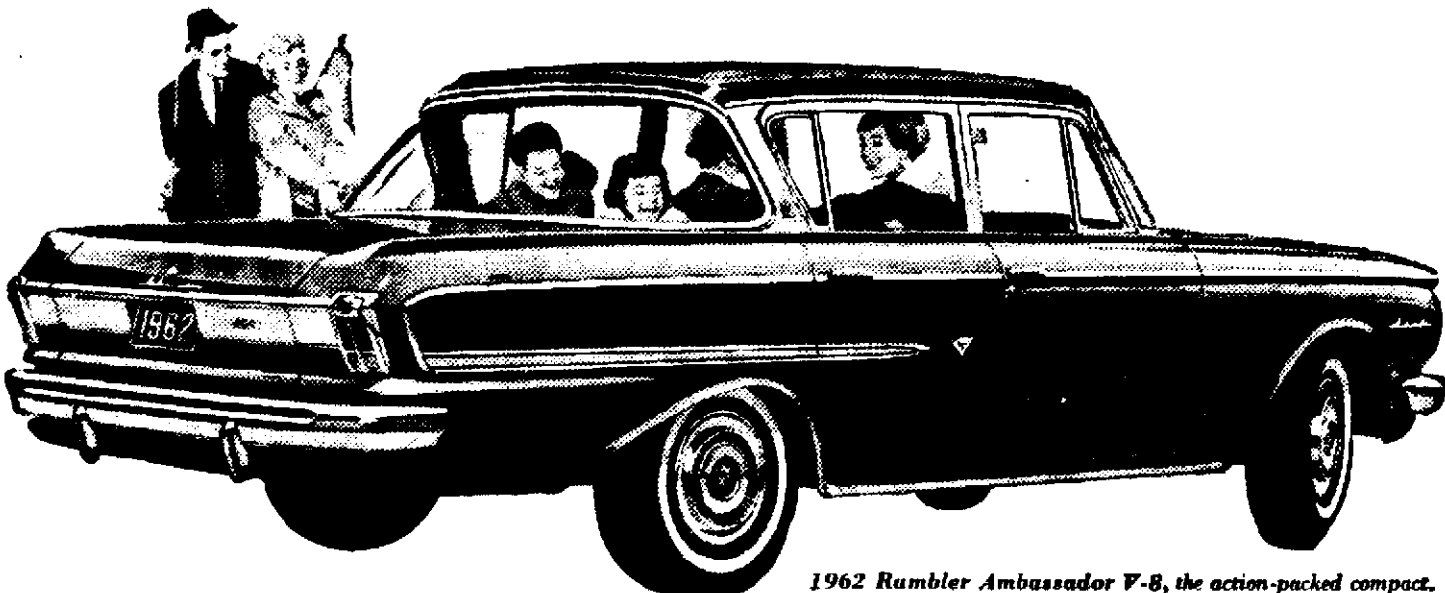

\$100 Taken

OSHKOSH—Approximately \$100 was taken from the change machine at the A and B Laundromat, 941 Algoma Blvd., sometime Wednesday night. The theft was discovered at 7:20 a.m. today committed to the sales tax, with by Newell Birr, operator of the some exemptions, as a means laundromat.

The Chicken in This Chicken 'n' Macaroni dish has a stuffing that's used for subtle flavoring . . . then is discarded. When the cooked bird comes to the table it's served in a macaroni nest, topped with green peas in scarlet pimientos cups, carrots and mushrooms.

Chicken Used To Be Sunday Treat, Today It's An Any-Day-Of-Week Budget Dish

By LILLIAN MACKESY
Post-Crescent Food Editor

Once upon a time . . . back in the days of the horse and carriage . . . kerosene lamps and gas mantles remembered well by some of us . . . tender, fried or roasted chicken held the place of honor in the center of the Sunday dinner table.

Mounded high on the Sunday-best platter, surrounded by side dishes of vegetables and varieties of pickles, chicken was considered a delightful once-a-week treat.

Today, the cost of the broiler-fryer has reached an all-time low, making it more accessible to the family pocketbook. Chicken today is a budget dish . . . to be served as many times a week as the family wishes. Listed as a plentiful food during October, the smart homemaker will be on the lookout for new ways to serve this plump and meaty bird.

The broiler-fryer may be broiled, fried, barbecued, roasted, baked, skillet-simmered or prepared in a casserole. To help vary the menus, here are a few unusual recipes, guaranteed to raise many an "oh" and "ah" of satisfaction.

Chicken 'N' Macaroni
3-pound broiler-fryer, left whole and trussed
juice of 1 lemon
1/4 teaspoon coarse black pepper
1/4 teaspoon paprika
4 ounces pimientos (jar or can)
1 chicken liver
1 white onion, sliced
1/2 teaspoon salt
3 tablespoons butter
1/4 cup salad oil
1-pound can tomatoes
1 bay leaf
1 clove garlic
1 cup wine, stock, broth, cider or water
8-ounce pkg. elbow macaroni
12 little carrots, scraped and cooked
1 pound mushrooms, rinsed
cooked peas
Combine lemon juice, pepper and paprika; rub into skin of chicken. Mince one whole pimiento with chicken liver and sliced onion, add salt and butter. Spoon mixture into cavity of bird. This mixture is for seasoning and should be discarded before serving chicken.

In a large earthenware casserole, Dutch oven, chicken fryer or any deep, heavy pot with tight fitting cover, heat oil first, then brown chicken in hot oil on both sides.

Remove most of oil from pan and reserve. Combine tomatoes, bay leaf, garlic, wine or other liquid; add to chicken in pan. Cover and cook over low heat for about 45 minutes, or until chicken is tender. Remove cover.

Cook macaroni as directed on package until almost tender; drain and spoon around chicken in pan or casserole. Add cooked carrots, sliced or whole mushrooms. Cover casserole and continue cooking for an additional 20 to 25 minutes, until macaroni is fully cooked and mushrooms tender.

Fill rest of whole, canned pimientos with cooked peas. Place around chicken. Drizzle entire surface of casserole contents with tablespoon or two of reserved oil. Sizzle quickly under broiler. Serve at once from cooking pot. Recipe makes six to eight servings.

Chicken Javanese
3 tablespoons cornstarch
1 teaspoon paprika
1/2 teaspoon salt
1/2 teaspoon onion salt

Peanut Butter Adds a spicy, nut-like taste to this Chicken Javanese that's simmered with chopped onion, sliced celery, green pepper rings, raisins, pineapple cubes and a little soy sauce. Hot, cooked rice is added to the sauce before serving.

Savory Chicken With Tomato Sauce is one of those dishes that have a company air about them, yet are easy to prepare. Chicken pieces are dipped into milk, then a cornflake crumb and herb mixture. The coated chicken pieces go into a foil-lined, shallow baking pan, then are popped into the oven. A quick herbed tomato sauce, hot rolls and asparagus complete the festive dinner.

2 1/2-pound fryer, cut in pieces
1/3 cup peanut oil
1/2 cup finely chopped onion
1 cup sliced celery
1 cup green pepper, cut in rings
1/2 cup crunchy peanut butter
2 tablespoons soy sauce
1 cup water
1/4 cup raisins
1 large can pineapple cubes with syrup
4 cups hot cooked rice
Combine cornstarch, paprika, salt and onion salt. Coat chicken with seasoned cornstarch. Saute chicken in hot peanut oil until well browned, about 15 to 20 minutes. Remove chicken. Add onion, celery and green

Call This Dish by its French name . . . Poulet aux Peches . . . or plain Chicken with Peaches, it's apt to become a family classic. The broiler-fryer is stuffed with cornflake crumb dressing and cooked with peach halves to make a delicious main dish.

Chicken Normandy is a delectably flavored and sauced combination of plump chicken and juicy apple slices from the farmland kitchens of provincial France. After a thorough simmering, the chicken mixture is served over strands of hot spaghetti.

Writer Gives Simple Solution To Woman Afraid of Darkness

BY ANN LANDERS

DEAR ANN LANDERS After reading about the woman who was afraid of the dark I just had to write I was in the same boat a few years ago.

The nights my husband had to work I died a thousand deaths. The children sensed my fear and I know I made them afraid, too. One day my husband left us forever — a fatal coronary struck him without warning. I knew then I'd have to face every night alone and I'd better learn to be brave.

A wise friend gave me a German shepherd. That dog turned out to be my best friend. I can honestly say that since Machen has become a member of our family I have no fear of the night or the darkness. The answer was so simple I wonder why no one mentioned it before. Please pass this word to other 'Fraidy Cats' — Daily Reader

Dear Daily: Thanks for your letter. Dozens of "Former Friday Cats" have been passing this word to me! A Harrisburg, Penna. reader wrote: "My watchdog is a two-pound

Mexican chihuahua. He sounds like a ferocious beast. If a prowler could see the little mosquito who makes all that racket behind the door, he'd blush with shame."

DEAR ANN LANDERS My husband is a good man but he has a short temper. He has so many fine qualities that I forgive his little blow-ups.

The woman next door happened to be sitting in our kitchen last evening when George got a little upset because I threw away his old hunting jacket. The neighbor got right into the argument on my side, and I could have brained her. She made George a lot madder than he would have been if she had just shut up. He finally told her to keep her big nose out of other people's arguments.

The woman left mad. My husband says he can't stand her and if she never comes into our house again he'll be happy. Do you think I owe her an apology? — Ida

Dear Ida: No. Real friends don't hang around to watch family fights. Your neighbor should have left after the first sign of a rumble. Becoming involved was inexcusable. She earned whatever George said to her.

DEAR ANN LANDERS I'm a widow with three children. Several months ago I met a man who treats me just wonderful. He has asked me to marry him when his divorce becomes final. His wife is stubborn and it may be a while yet but we've decided not to let that interfere with our happiness.

He has taken me and the children on some very educational trips. He buys them presents and they are fond of him. Every weekend he does odd jobs around the house, just the way a husband would.

For my birthday he gave me a beautiful leather purse and inside was a \$50 bill. My oldest daughter says I should not accept it. I do not agree with her. After all, I've had him here for weekends, I've cooked for him and done his laundry. If he wants to give me a few gifts in return I feel I should accept them. Who is right? — Respectable

Dear Respectable: Your signature doesn't match your story. The man you've been traveling with, cooking for and entertaining in your home weekends is married.

Give the purse back — and the man also — to his wife.

If alcohol is robbing you or someone you love of health and dignity, send for Ann Landers' booklet, "Help For The Alcoholic," enclosing with your request 20 cents in coin and a long, self-addressed, stamped envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped, self-addressed envelope.

pepper to peanut oil. Cook until soft, three to four minutes. Combine peanut butter, soy sauce and water. Add to skillet and mix well. Add raisins, pineapple and apricot and stir. Then add browned chicken. Cover and simmer until chicken is tender, about 25 to 30 minutes.

Remove chicken. Add cooked hot rice to sauce and stir until well mixed. Serve with chicken on platter. Recipe serves five to six persons.

Chicken with Peaches
(Foulet aux Peches)
2-pound broiler fryer
5 cups corn flakes or
1 1/2 cups corn flake crumbs
1/4 cup butter
1/4 cup finely chopped onion
1/2 cup finely diced celery
1 can sliced mushrooms (3 or 4 oz.)
1/2 teaspoon salt
1/2 teaspoon poultry seasoning
heavy duty aluminum foil
8 canned cling peach halves

Prepare chicken for roasting. Roll corn flakes into crumbs. Melt butter in saucepan. Add onion and celery, cook until tender but not brown. Add mushrooms with liquid, salt and poultry seasoning. Bring to a boil. Remove from heat. Add crumbs and toss lightly. Stuff and truss chicken. Place chicken in center of a 24-inch length of heavy duty aluminum foil. Brush chicken with additional melted butter. Bring ends of foil together over breast, make double fold. Place in shallow roasting pan.

Roast in 450-degree oven 20 minutes for each pound, in this case, one hour.

After roasted, open foil and flatten in pan exposing chicken. Place drained peaches cut side up, on foil around chicken. Roast 20 minutes longer to brown chicken and heat peaches. Place chicken on heated platter, garnish with peach halves.

If desired, one-half cup marinade may be combined with one-fourth teaspoon curry powder

and spooned into peach halves before baking.

Chicken Normandy
3-pound frying chicken, cut in serving pieces
1/4 cup salt
1/4 cup butter
1 medium onion, thinly sliced
2 tablespoons sliced hearts of celery
2 tablespoons chopped parsley
2 1/2 cups apple slices
1/2 teaspoon thyme
1/2 teaspoon salt
1/2 teaspoon nutmeg
2 tablespoons heavy cream

1 tablespoon salt
3 quarts boiling water
8 ounces spaghetti
Sprinkle chicken with three fourths teaspoon salt. Melt butter and chicken and cook over medium heat until golden brown on all sides. Remove chicken from skillet.

To drippings in skillet, add onion and celery. Cook over medium heat stirring occasionally for about five minutes. Then add chicken, parsley, apple slices, thyme, 1/2 teaspoon salt and nutmeg. Cover and cook over low heat from 40 to 45 minutes, stirring occasionally. Stir in cream just before serving.

While chicken is simmering add 1/2 teaspoon salt to rapidly boiling water. Gradually add spaghetti so that water continues to boil. Cook uncovered until tender, stirring occasionally. Drain in colander. Serve chicken mixture over spaghetti.

Savory Chicken
With Tomato Sauce
1 frying chicken, cut in pieces
1 cup cornflake crumbs
1 teaspoon monosodium glutamate
1/2 teaspoon salt
1/2 teaspoon basil
1/2 teaspoon oregano
aluminum foil
1/2 cup evaporated milk
1 pound (or can) stewed tomatoes
6 ounces tomato paste
1/4 teaspoon garlic salt
1/4 cup chopped parsley

Combine crumbs with seasonings. Line shallow baking pan

Lady Republican Wants Caroline Out of Mansion

WASHINGTON — Mrs. Clare B. Williams, assistant chairman of the Republican national committee, addressing the Republican Western conference, said "Speaking of women, perhaps you may know that I like to see them active in politics — most of them, that is."

"But there ought to be a law against lady politicians under 40 years old. There is one in Washington who is giving us fits."

"If Chairman William E. Miller makes a brilliant speech she gets a puppy dog from the Kremlin and wipes the chairman off the front pages. If Sen. Everett Dirksen (R-Ill.) presents a statesmanlike bill, little Caroline falls into a swimming pool and Dirksen winds up on page 10."

You have to keep an eye on these women. Next thing you know, Caroline might be in the senate

with aluminum foil. Dip chicken pieces in evaporated milk, then in seasoned cornflake crumbs. Place chicken pieces in foil lined pan, avoiding crowding. Bake in 350-degree oven for one hour or until tender. There is no need to cover or turn chicken while it is cooking.

Combine tomatoes tomato paste and garlic in a one quart saucepan. Bring to boil then simmer for 15 minutes. Serve with Savory Chicken, using parsley for garnish.

GIFT CAUSES EMBARRASSMENT

A man whom I've been dating off and on for the past year sent me a set of jewelry necklace, bracelet and ear-rings. He has been quite serious, but he is not for me as a husband. What should I do about this gift that I really don't feel I want to accept? I do not want to offend him if possible.

Louise Davis Answers:

I suggest that you return the gift by insured mail and at the same time send him a cordial note that, "You were so generous and thoughtful to send me the lovely set. However, I feel that I cannot conscientiously accept it and I am returning it to you hoping you will understand." If you wish, you may even add that "this doesn't mean that I want to end our friendship; it just means that I'm not ready to receive the gift." Of course any thing you say may embarrass or humiliate the man, but I do think that he was too hasty or presumptuous by sending the set in the first place.

Officers of Fox Valley Artists Assume Duties

Century Club, De Pere, was the setting Tuesday evening for the meeting of Fox Valley Artists. Bernard Peterson reported on the July 9 show at Oshkosh and Mrs. Elmer Thalke reported on the Aug. 6 exhibit at the Golden Age Clubhouse.

New officers assumed their duties. Mrs. Milton Heintz former vice president, took office as president. Mr. Peterson took office as vice president and Mrs. Ceve the gift. Of course any thing you say may embarrass or humiliate the man, but I do think that he was too hasty or presumptuous by sending the set in the first place.

The regular meeting date has been changed from the second to house-warming is it obligatory to the fourth Tuesday of the month take a present? Personally, I there will be a speaker at the would much prefer to see the next meeting, to be held in Oshkosh.

Hostesses were Mrs. William Farmer, Mrs. Elmer Hall and Mrs. Sol Kazlo. Mrs. Bertha Gest to house-warmings, there is no all a member from Two Rivers reason why you shouldn't stick to your preference by waiting until you see the decor. Your plan is thoughtful buying, therefore show must be at the Neville public museum by Oct. 28.

Sheinwold Truth Can Be Fatal At Times

BY ALFRED SHEINWOLD

If you always tell the truth you'll have an interesting time but few friends. You may also have trouble finding bridge partners.

South won the first trick, drew a round of trumps, and planned to try the club finesse first and the heart finesse later. If either finesse worked, he would make the slam.

Before setting to work, however, South drew an extra round of trumps. There was, after all, no hurry, and something might turn up.

On the second round of trumps East smugly discarded the nine of clubs. East was feeling very pleased with himself. He had a king behind each of dummy's aces, and he was willing to share the good news with the world.

South Thinks

South thought about the discard, about East's air of happiness, and about East's reputation as a man who never strayed from the exact and literal truth.

Had something turned up? Yes, it was West's nose. South was convinced that East really had the king of clubs. This information was enough to guarantee the slam.

South took his two remaining diamonds, cashed the ace of clubs and gave up a club trick to East. There was now no way for East to get out safely. If he returned a heart, dummy would get a free finesse, and if East returned anything else would ruff while South discarded the losing heart.

If East had been a crafty player, his nine of clubs would have meant nothing. South would have taken the club finesse, paying no attention to the threatening signal.

The moral is quite clear. If there is no deceit in your nature, bridge is not the game for you. Partner opens with one club.

Routines Help to Establish Security

BY ANGELO PATRI

Life is easier, smoother, for on sleep one night registers itself in the next day's routine. This is why we ask regularity day without too much thought for children from babyhood on. It about them. Having been set in not only eases their learning, childhood they are almost auto- and all learning is difficult for be- matic. If for any reason these gimmers, it upholds the health of habits are interrupted, the body their bodies and minds. We do not

and mind are distressed. A brok- want to regiment a child, but we hours. Dentist, once every six months and medical examinations at least once a year, oftener if need be.

These habits are implanted by daily practice under the super- vision and direction of mothers. Mothers are the first and the most impressive teachers as it is they who set these habits and at- titudes in the children.

School Routine Aids

The teachers in the early grades supplement the mothers. Each morning they inspect the children to see how clean they are: hair, necks, fingernails, teeth, shoes shined, etc. They are careful to see that their charges go to the toilets, wash their hands, get a drink, play their games on time. Time is so important in these matters. Not just the very minute, but near it always so that the routine is established in the body and mind of the child in question.

When school closes and the children are at home they are de- lighted at the idea of freedom. No getting up to be on time for the bus, no homework, just free- dom. But before the day is out they are weary of the freedom. They are at a loose end, confus- ed, cross, whining for something to do or for somebody to do something for them. There should be another routine waiting for them the morning after school closes to avoid this unhappiness and discomfort.

Vacation time, especially for the older children, should be used to forward their learning. The lessons may be in the guise of a job, excursions, trips to mu- seums and zoos and faraway places; but there must be a cen- tral strengthening habit of regu- larity that carries through the days or there will be unhappiness and discomfort.

Variety of Brushes Essential

For want of a brush, good in your shoe and handbag ward- robe. Brushes used for dark col- ors cannot be used on light. Particularly necessary for ca- mere women and travellers, pur- sue look that you desire, and others; size brushes—tiny hairbrush, fold- ing toothbrush, magnetic whisk, retractable lip brush.

Besides those basics, a number of specialized brushes aid the grooming cause. For example, powder and eyeliner brushes are indispensable to some women. Tweed fanciers would not be without a twig-like tweed brush. Just name your special need, there's a brush to fill it and, thereby, to make a clean sweep of your grooming.

Select Furniture With Eye on Knobs, Trim

Hardware on furniture is like costume jewelry. As you view the new furniture displays this fall, notice the handsome variety of de- sign in drawer pulls, cabinet knobs and escutcheons. Each one has been selected with as much care as you would use in choosing a necklace.

You will also see metal orna- mentation on small tables, as gal- leries or decorative framing. Pewter and aluminum are anod- ized to protect against corrosion. You will see brass in softly glow- ing tone, or antiqued with lacquer depending upon the style of the furniture. Some elaborate drawer pulls, especially on French Pro- vincial furniture, may be an- tiqued with tinted lacquer, often to blend with the colored finish of the furniture.

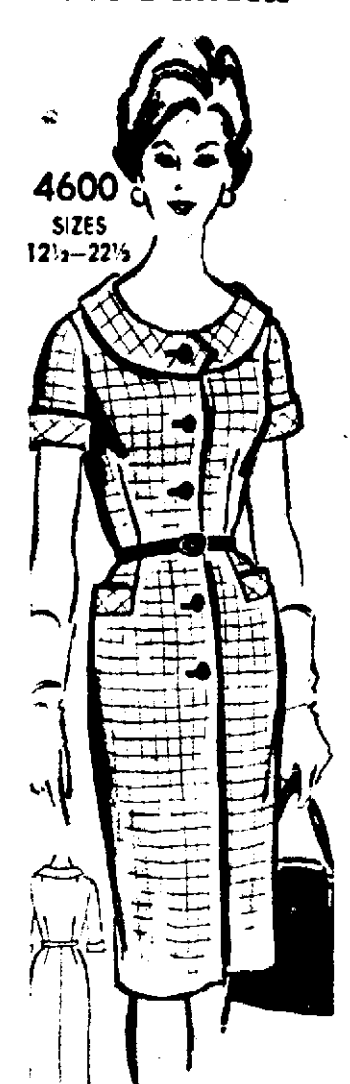

Porcelain and ceramic drawer pulls accent wood tones. One group has porcelain knobs show- ing painted figures in 18th Century costumes. White porcelain knobs often accent Early American pieces. At the modern extreme of this idea are long oval pulls of mottled, green-amber ceramic set in brass.

Mahogany, long considered a formal furniture wood, is seen in a new color — instead of the old red-black tone. It is now being used in more casual styles.

Most notable is a new furni- ture grouping in true ranch style. Called "Mahoganotty," it is made of mahogany with a pin-knot grain. Hardware is rawhide and hand-beaten brass.

Another innovation is a group of consoles and tables in Italian Provincial. This group is present- ed in a distinctive tawny, light brown finish, achieved through an entirely new bleaching technique. The tables have proved so suc- cessful that the manufacturer plans to add correlated living, dining and bedroom pieces.

Wood to Disappear in Furniture, Says Designer

BY JOY MILLER

NEW YORK (AP)—Getting to be plastic chairs that look tubu- lar, tortured or like diseased mushrooms?

Then stick around. The next decade or two are for you.

John Van Koert, one of the country's eminent designers, pre- dicted new shapes, forms and func- tions in furniture in the next 10 to 15 years, dictated by kinds of Koert's heart.

"I truthfully believe it is per- fectly absurd to hold onto medi- cine points out, and in a few years ocre average furniture when you furniture will be made of plastics move. Why drag an inexpensive or metal, with wood used only for little sofa across the country, decorative purposes.

Different Architecture

"The whole domestic architec- ture will be different," says Van Koert. "Rooms will not be bed- rooms, dining rooms and so forth, there's no reason to keep it."

Oh, he's all for heirlooms. Van Koert explains quickly. Works of art and fine handcraft should have a permanent place.

"But I won't attach value to an awkward piece of furniture."

Van Koert thinks the time will come when we have a few very fine portable possessions. "Ameri- cans are becoming more and more nomadic. The tables have proved so suc- cessful that the manufacturer plans to add correlated living, dining and bedroom pieces.

Old Designs Fulfill Needs

There is almost no limit to the number of dual purpose furniture as we know them. People will live in a house, which will be Koert explains quickly. Works of art and fine handcraft should have a permanent place.

25 Inches of Rainfall Recorded in 4 Months

Exceeds Average by Nearly a Foot;
Hurricane Boosted September Count

Rainfall for the last four months lation since last April 1st of 3,906 totaled 24.87 inches or about 11.85 degree-days. Normal values are inches above the normal for the 641 and 3,881 degree-days summer period and an all-time respectively.

Four thunderstorms were observed during the month. There were six clear days, 14 partly cloudy and 10 days overcast during September. The average wind velocity was 11.1 mph and Tuesday night on charges of plotting the prevailing wind direction was west-southwest. The maximum velocity of 36 mph was recorded on Saturday in association with thunderstorms.

The September accumulation of rainfall amounted to 5.68 inches, still above normal for the month. The air remained warm and pleasant the first 10 days of the month with 90 degrees being observed on both Sept. 9 and 10 for the month's maximum. With the passage of Carla, temperatures dropped below normal with heat being needed in many homes for the first time this fall. A light frost occurred on the morning of Sept. 28 when a reading of 33 was observed for the month's lowest temperature. The monthly mean of 62.50 was one degree above normal.

Heating Begun
Heating degree-days began Sept. 12 and by the end of the month 168 heating degree-days had accumulated. Normal is 160 for September. The growing degree-day season started to taper off as 638 degree-days were added during September for an accumu-

No Double Jeopardy If He's Spanked Twice
NASHVILLE, Tenn. (AP)—"If the principal at school whips me and then my mother whips me for the same thing when I get home, can she be arrested for double jeopardy?" a young boy asked startled complaint clerk Fred Stromatt of the Nashville police.

Stromatt assured the youngster Tuesday that his mother can spank him anytime he does anything wrong.

The roundup brought to about 370 the number of persons held under Ghana's preventative detention act, which permits internment "political undesirables" up to five years without trial.

A government statement said the men arrested had been "deliberately engaged in activities calculated to subvert and endanger the security of the state."

It accused them of "acts of violence, secret meetings, taking of secret oaths to assassinate the president and certain members of the government, strikes, sabotage and lockouts."

The security arrests raised new doubts about a scheduled 10-day visit next month by Queen Elizabeth II to this former British colony.

Duncan Sandys, British secretary of commonwealth relations, was in Accra when the arrests were announced. He came here this week for talks with Nkrumah in an attempt to repair recent strained relations between the two countries.

ACCRA, Ghana (AP)—Forty-three men, including leading political opponents of President Nkrumah, were arrested Tuesday night on charges of plotting to assassinate him.

Among them were Dr. Joseph Danquah, opposition candidate in Ghana's 1960 presidential election, opposition leader Joseph Appiah, son-in-law of the late Sir Stafford Cripps, once chancellor of the British Exchequer, and former Social Welfare Minister Patrick Quaidoo, ousted from Nkrumah's Cabinet last May.

Three members of Parliament and seven women also were arrested, the latter on unspecified charges.

Failures Seen In Red China's Farm Program

Nation Can't Raise Enough Food to Take Care of People

TOKYO (AP)—Red China admits failures in farm and factory and in the midst of its economic difficulties has turned to a study of the Soviet Union's "experiences in socialist construction."

These disclosures unfolded from thousands of words of editorials and speeches during the just-concluded Oct. 1 celebration of the 12th anniversary of the Red regime's founding.

While studying Soviet experience in building its economy, Red China has emphasized it will continue the rural communes as called by Soviet Premier Khrushchev as impractical.

Report Failures

Chinese officials report failures in agricultural production had a damaging impact on heavy and light industry and the nation's living standards.

Speeches and editorials made repeated references to difficulties brought on by natural calamities—drought, flood and typhoon—in the past three years.

Peiping earlier this year conceded that the grain harvest had been a bad one. But this was the first direct admission of the effect of crop failure on light and

heavy industry and "the people's livelihood."

Needs Agriculture

Essentially an agricultural country, Red China always has depended upon agricultural exports to get the machinery needed for industrialization.

The official Peiping People's Daily said: "While achieving great successes, we have encountered certain difficulties in the economy in our forward march and there have been certain shortcomings in our work."

It went on to say that this year has been one of great readjustment "to overcome the new discrepancy in the balance of the national economy."

Readjustments On

Readjustments are going on in the rural communes and in farm production. People's Daily said, with manpower and material being poured into the countryside. As a result this autumn's harvest, if continued, "may be slightly better than last year's."

The paper indicated there is a grave shortage of raw materials to feed the nation's growing industrial complex. It called for efforts to boost the production of light industry and handicrafts, the capacity of mining and lumber projects.

Mayor Peng Chen of Peiping, a member of the powerful Chinese Communist party Politburo, after pointing out the difficulties the nation now is encountering, said "the advantages of the rural people's communes have manifested themselves more and more clearly in overcoming the natural calamities and in achieving leaps forward in agricultural production."

The communes were ordered

Department Store Bill Brings Frayed Nerves

NEW YORK (AP)—Gentlemen: Do department store statements make your wife nervous? Does she hide them from you until pay day? Does she try to disappear while you figure them out? Does she point to a figure modified earlier this year following failures in agricultural production. But Peiping continues to insist that the program—the brainchild of party chairman Mao store thinks it owes me around \$300. It said so right on the last of the country's advance toward pure communism.

Pigeon No Socialist Say Reds

MOSCOW (AP)—The privileged status of the Moscow pigeon may soon come to an end.

In what sounded like the opening shot of a campaign, the week of the check (red ink) but forgot to charge me for the sofa (black ink). That left me way ahead. The mistake was explaining to her the difference between red ink and black ink. Now she figures out red ink very well and is delighted. She intends to spend this city fathers put an end to the pigeons' favored treatment and free handouts at the expense of the taxpayers.

Moscow's thousands of pigeons are the special charge of the Moscow street lights at 10:30 a. m.

Thursday, October 5, 1961 Appleton Post-Crescent B8

ly newspaper Nyedelya printed cow Veterinary Department head two bitter letters from pigeon-hat-ed by V. E. Bokach.

"The Moscow Soviet," Bokach was quoted as saying, "appropriates a rather large sum annually for the feeding of pigeons. These birds consume 80 tons of grain a year."

Moscow runs 24 pigeon feeding stations. Here, Muscovites buy grain at a few cents a cup and feed the hordes of birds that descend by the hundreds from surrounding buildings.

Cloud Brings Night

COLUMBUS, Ga. (AP)—Columbus thinks maybe its automatic street light system is a trifle too sensitive.

A heavy thundercloud passed over the city recently and the electric eye device turned on the street lights at 10:30 a. m.

Slight Stroke May Not Affect Brain, Doctor States

BY JOSEPH G. MOLNER, M.D. only I'm wondering if they will harm me in any way. — R.G.

"Dear Dr. Molner: So many of us have 'strokes' resulting from cerebral thrombosis that I ask your comments as to the circumstances contributing to the first occurrence and repeated attacks. —R.R."

It's fruitless, I believe, to try to connect a stroke with any particular occurrence. There might at times be a connection, perhaps, but it is just about impossible to prove. Oh, we can be sure enough that exhaustion, or cold, or some other physical condition may play a part in inciting an attack of pneumonia, for example, but it's a contributing factor, not a cause. And so with strokes.

The basic causes of stroke are a plugging of an artery in the brain (cerebral thrombosis) or a hemorrhage of one of the many blood vessels in the brain due to rupture of the vessel.

"Little Strokes"

A thrombosis is usually due to the narrowing of the arteries—hardening of the arteries. A person may have one major attack, and then no more. Or, at the other extreme, a person may have many so-called "little strokes," so slight that there may be no indication that one has occurred at all. A "little stroke" is one in which some smaller blood vessel may become plugged without affecting important areas of the brain.

The basis is the narrowing of the inside diameter of the blood vessels, which may lead to a thrombus, or clot, being caught in the narrowed portion.

It is true that severe infections, on the order of typhoid, pneumonia or malaria, may help incite strokes. Intoxication from alcohol, carbon monoxide or other poisons can also be a factor, yet with all of them, the underlying factor of impaired arteries must be present, too.

As to the choleric fits of anger which some people display, to the alarm of those around who say, "I was afraid he was going to have a stroke." I'm not so sure. There isn't much obvious reason why they should cause a cerebral thrombosis—that is, a clogging of an artery.

But there might be good reason to associate this with the other sort of stroke, the breaking down and hence bleeding from some weakened point in the artery.

Until we learn more about the arteries, there isn't any way to prevent some hardening of them as we grow older. But we can protect ourselves by maintaining good general health and avoiding or immediately treating such infections and poisons as I've mentioned.

Burning Feet

"Dear Dr. Molner: In the last few weeks whenever I am sitting down, either with both feet flat on the floor or with my legs crossed, the soles of my feet begin to burn as though they were on fire. —J.R.H."

Shoes that don't fit properly, tight garters, defects in the arches that are beginning to have consequences, or neuro-circulatory disturbances can cause this. The condition warrants a check by your doctor.

Diverticulitis

"Dear Dr. Molner: Your article on diverticulitis has me wondering I am 52 and have been troubled with hemorrhoids. I have my fruits and vegetables.

Washington Senators Send Dick Donovan To Cleveland

NEW YORK (AP)—The Cleveland Indians traded Jimmy Piersall, their fiery center fielder, to the Washington Senators today for Dick Donovan, veteran pitcher, and three other players.

In addition to Donovan, the Indians will get outfielder-catcher Gene Green, utility infielder Jim Mahoney and a third player to be delivered by Jan. 1. No cash was involved.

Piersall, a controversial figure ever since he came up to the American League with the Boston Red Sox 10 years ago, enjoyed his

Yanks Now 4-1 Favorite

Howard and Skowron Prove Lightning Can Break Out Anywhere in Balanced Lineup

BY JERRY LUSKA

Associated Press Sports Writer

NEW YORK (AP)—With an impressive first game victory behind them, the New York Yankees today had jumped from 2½-1 to 4-1 favorites over the Cincinnati Reds as the World Series moved into its second game.

Roger Maris, fresh from his 61-home run season, was a bust, and the other half of the Yankees' main slugging punch, Mickey Mantle, was benched. But the Yankees used a simple one-two home run salvo by two lesser acclaimed heavy hitters—Elston Howard and Bill Skowron—to scuttle the Reds, 2-0, in a tight series opener Wednesday.

Whitey Ford's masterful two-hit pitching was the big conversation piece of the opener. It marked the doughty Yankee southpaw's third successive series shutout and put him in the position Sunday, in a likely second start, of topping Babe Ruth's record of 29-2-3 consecutive scoreless Series innings. Ford now has 27.

Kasko and Post Only Eddie Kasko, with a first inning single, and Post, slugging a fifth inning single, were able to solve Ford's superb delivery.

Ford used only 115 pitches in tying the Reds into knots, but he did get two magnificent fielding assists from third baseman Clete Boyer.

Boyer made a fine play on Freese's smash in the second inning, but he really thrilled the crowd of 62,397 in the eighth when he made a diving stop of pinch hitter Dick Gernert's blue dart and threw him out from his knees.

The luckless loser was Jim O'Toole, who hadn't yielded a home run since July 28 in 16 regular season games. The Cincinnati lefty, who finished the National League season with a 19-9 record and had won his last eight decisions, was the big series hope of the Redlegs.

He did a strong job of halting the heralded Maris, but the blows of Howard and Skowron simply underscored the fact that the home run lightning is likely to break out anywhere in the well-balanced Yankee lineup.

O'Toole pitched himself out of two bad jams—with the bases loaded in the first, and with two Yankee runners aboard in the fourth. When he was lifted for a pinch hitter in the eighth, he had yielded six hits. Jim Brosnan finished for the Reds with a hit-

less eighth, although walking Yogi Berra, who sets a Series record virtually everytime he picks up a bat or glove.

Berra, a former star catcher who now patrols left field in a quaint but efficient fashion, is in his 12th series and Wednesday appeared in his 69th series game.

Ford, the 32-year-old lefty from Lake Success, N.Y., issued only one walk and, in striking out six, swelled his own World Series strikeout record to 69. Ford also now holds the undisputed Series record with his eight victories. He also has started more World Series games than any other pitcher, 15.

Yankee Infield Finally Gets Into Spotlight

Defense Overlooked In Clamor Over Home Run Hitters

BY TED SMITS

NEW YORK (AP)—All season long men who know have been saying that the 1961 New York Yankee infield could be one of the best in the long history of baseball.

Their words of praise, however, could scarcely be heard above the clamor about the home run hitting of Roger Maris and Mickey Mantle.

Come the World Series, with Mantle on the sidelines and Maris handcuffed by Red pitching, and it was the Yankee infield that took the spotlight in an opening game 2-0 victory over Cincinnati.

This is doubly true if pitcher Whitey Ford is counted as part of the inner defense.

Fielding Flawless He was helped along by two other infielders, catcher Elston Howard and first baseman Moose Skowron. Howard hit a homer to the far right field corner in the fourth, and Skowron blasted into the left field stands in the sixth for the only scores of the game.

Throughout the fielding of the Yankee infielders was flawless.

Fox Lutheran '11' Opens Home Season Friday

After playing the entire first half of its schedule on foreign grounds, the Fox Valley Lutheran High School football team opens its home campaign Friday afternoon.

The Foxes take on Elkhart Lake at Goodland Field. Kickoff time is 1:30 p.m.

FVL broke a losing streak at three games last Saturday with a 20-0 triumph over Howard's Grove. The Foxes had previously lost to Freedom, Oshkosh Lourdes and the Northwestern Preps of Watertown.

Elkhart Lake, which is playing only its second season of football, has lost its only two starts—6-2 to Hilbert and 14-0 to Cedar Grove.

Supes Come Through Fox Lutheran fullback Dave Mueller missed the first three days of practice this week because of the flu. His availability for Saturday is doubtful. If he is unable to start, sophomore Jack Wolke will take over. Wolke is one of a group of sophomores Coach Dave Unmus ing

Skowron and Howard hit homers while Ford pitched a 2-hit, 2-0 win over Cincinnati in Wednesday's World Series opener in New York. In the bottom photo, the Reds' Wally Post crashes into Yank third baseman Clete Boyer as he was tagged out in the fifth inning. Boyer, the defensive star of the game, held onto the ball.

Reds' Coleman Says Ford Has More Stuff Than Warren Spahn

BY ED CORRIGAN

NEW YORK (AP)—The Cincinnati Reds admitted today, almost to a man, that if they had to face Whitey Ford every day, they might as well fold their tents and pitches his game. He never gave us a chance.

Ford, the only native-born member of the New York Yankees, mowed the Reds down, 2-0. As for Ford, now he has one on a slick two-hitter to give the big record and if all goes right Yanks a 1-0 series edge Wednesday.

His victory gave him eight in the supreme compliment of World Series competition, breaking his tie with Red Ruffing and Allie Reynolds, both former Yankees. The shutout also gave him 2 consecutive scoreless innings yesterday.

"But, gosh, how Ruth's series record of 29-2-3 back many days can a guy throw a two-hitter?"

Pitches Him Tight Only Eddie Kasko and Wally Post got hits off Ford, both singles. He completely throttled the Reds' big guns, Frank Robinson and Vada Pinson.

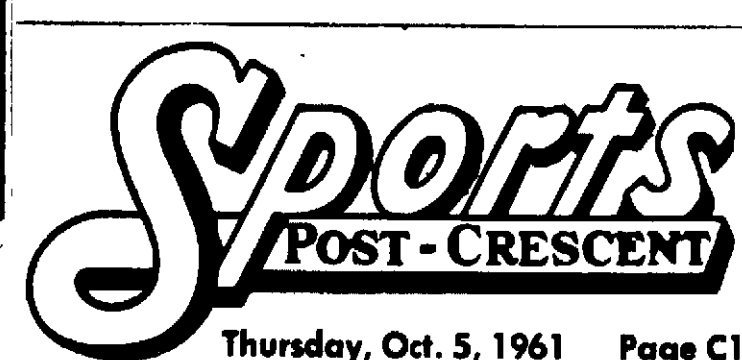

"He kept pitching me tight and getting me out," said Robinson.

Packers to Face New Baltimore Colt 'Shuttle' Defense

Ewbank Substitutes Linemen to Keep Fresh Pressure on Foe

GREEN BAY (AP)—Johnny Unitas, known as "Mr. Quarterback" in National Football League circles, brings his Baltimore Colts to Green Bay Sunday for the 17th game between the professional teams. The Colts have won nine and the Packers six in the series.

And if past performances are any criterion the Packers not only will have trouble stopping Unitas but they will have to devise a defense that will prevent Steve Myhra from kicking long field goals.

Myhra kicked a 52-yard field goal last Sunday that enabled the Colts to beat the Minnesota Vikings 34-33. In the opening game against the Los Angeles Rams he broke a 24-24 deadlock by kicking a 39-yard field goal.

Old-Time Form Unitas showed last Sunday that he was back in his old time form when he completed 13 of 27 passes for 248 yards and two touchdowns against Minnesota. He missed his first five shots, but his sixth was a 72-yard pass play with Lenny Moore on the receiving end that netted a touchdown.

The Packers also will have to contend with a new pass defense developed by the Colts. Coach Herb Ewbank now is shuttling his level.

Grinnell over Lawrence — The Packers also will have to contend with a new pass defense developed by the Colts. Coach Herb Ewbank now is shuttling his level.

Neenah over Kaukauna — The Mid-Eastern Conference's game of the year calls for one of our toughest picks this year. Both teams will be keyed to the skies—the Rockets have been pointing for this one for a year, while the Ghosts will have homecoming enthusiasm to cheer them on in defense of their title. Can Kaukauna's rock-ribbed defense (which has blanked three foes and limited them to an average of 40 rushing yards per game) contain Dave Neubauer, Winn Zimmerman and the rest of their speed-happy mates (who have averaged just shy of a point-a-minute)? In this season's version of the "irresistible force" vs. "immovable object" argument, it's the guess here that the Rockets will have just enough momentum for a narrow win.

Piersall Says Ford Used Spitter in World Series Opener BOSTON (AP)—Jimmy Piersall—always a controversial player on and off the field—says Yankee pitcher Whitey Ford used a spitball in the World Series opener.

The colorful Cleveland Indians outfielder made the assertion on a television program following the Series game Wednesday, then repeated it at his suburban Newton home.

"I know he was using the spitball," said Piersall, "because I know how the pitch acts. He didn't use it often but he used it smartly, at the right spots."

Piersall said Ford "has come up with the spitter because he has lost his fast ball."

In New York Ford was not available for comment.

The Fox Valley Catholic Conference's first 1961 battle of titans will match a Little Chute St. John and Appleton Xavier, a Cities conference engagement for pair of swift-striking, defensively-savage football teams.

Goodland Field will be the site of Friday night's clash between the unbeaten and untied teams. Kickoff time is 8 p.m.

Premonstratensians another of the league's top three powers besides

Both Xavier and St. John have averaged better than 300 yards a game on offense this season. The Hawks, who have not scored less than five touchdowns a game to date, have a more impressive point average—35 per game, compared to 23.7 for the Chutes.

Xavier has scored three straight shutouts since giving up two touchdowns to Escanaba in a 32-14 season-opening win. (The per-game average is 3.5 points).

St. John has recorded one white-washing (against Kimberly) and has allowed three foes an average of 10.7 points.

Three returning all-conference players lead the Dutchmen. They are tackle Dave Simon, halfback Joe Verkuilen and guard-turned-halfback Dennis Mahn.

Antonelli May Be Back, but Not With Colts

Distance Factor Would be Hardship On Family, Says John

ROCHESTER, N.Y. (AP)—One-time bonus pitcher Johnny Antonelli may try a comeback in 1962, but not if he's drafted by the Houston club in the National League.

The 31-year-old left-hander says he has nothing against Houston ("if I were younger, I'd love to get into a setup like that"), but says the distance factor would work a hardship on his family.

Antonelli has been placed on the Milwaukee Braves' eligible list for possible drafting by the Houston or New York clubs in the National League. The draft price is \$75,000 and major league rules forbid a salary cut of more than 25 per cent. Antonelli's pay check last year was estimated at \$40,000-plus.

"I won't decide for sometime yet whether or not I'm going to try to pitch next year. If I do decide to try again, and if I'm drafted by the New York club, I'll do the best I can and I think I will be able to help them."

If he remains in baseball—and he'd just as soon stick with the Braves—it will be his 14th season. He started with the Boston Braves in 1948.

Ford Eyes Babe Ruth's Runless Inning Mark

BY JOHN P. CARMICHAEL
Chicago Daily News Service
NEW YORK — This could be a bad year for Babe Ruth! Not including today, of course, when the Yankees and Cincinnati play the second game of this World Series, operating behind two righthanders, Joey Jay and Ralph Terry.

Already Roger Maris has out-homered Ruth, 61-60, for a single season. The first time that Mickey Mantle comes to bat, which probably won't be today, the Babe's 75 homers for cumulative series competition can be tied. Then, probably Sunday in Cincinnati, that unmatched record of 29 2-3 scoreless series innings Ruth pitched as a Red Sox southpaw may be broken by Whitey Ford, his diminutive Yankee counterpart.

Against Dodgers, Cubs
This Ruthian mark was set in 1916-18 against the Dodgers and the Cubs. Ford has now hurled 27 consecutive scoreless frames against the Pirates of '60 (10-0 and 12-0) and the present Reds, whom he whitewashed with consummate ease, 2-0, in the 1961 opener.

The Yankees were divided into three parts for the inaugural Part Ford, Part Clete Boyer, Part Howard Elston and Moose Skowron in a matchless cooperative effort which has now made Cincinnati a 5-1 underdog to win the world championship.

Almost, it was all Ford. He allowed two singles and only three

other balls it past the infield. He fanned six. In an atmosphere of 60 degrees, Whitey forgot his hot-weather fatigue and went all the way for an unprecedented eighth series triumph.

So they rode to victory again, the golden boys of baseball. Not on Mantle, who didn't play. Not on Maris, who didn't get a ball out of the infield. This time on superb defense, spiked with a couple of trademark homers by other members of the cast.

No wonder Jim Turner, who once coached the Yanks and now tutors Red pitchers remarked, "they haven't changed much."

It was a tough defeat for Jim O'Toole, the 24-year old Cincy southpaw.

Even Ford praised him. "He's a cutie," said the Yank left-hander. "I thought maybe he was a flame thrower like Juan Pizarro or Sandy Koufax or Steve Barber. But he doesn't give in to a batter. Even when he's 2-0, he's figuring angles."

Pointers Will Seek Fourth Win in Row

BY THE ASSOCIATED PRESS

Wisconsin college football teams open another round of games Friday night with Milton and Northwestern of Watertown in a Badger-Gopher Conference clash.

State College Conference action is confined to Saturday when undefeated Stevens Point will seek its fourth straight league victory by entertaining Stout, with a loss and a tie in two games.

Defending champion Whitewater, defeated by Stevens Point last Monday, will entertain La Crosse, winner of its only conference start. Whitewater has a 1-1 record.

River Falls, also unbeaten in league play, will go after its third victory at Oshkosh, 0-1. Eau Claire, with a 1-2 record, will be at Platteville, 0-2, while Superior, with a loss and a tie, will be at Wisconsin-Milwaukee, 1-1.

In other Badger-Gopher loop action, Bethel will be at Northland while Lakeland steps outside the conference to entertain independent St. Norbert, winner of its four straight years.

Lawrence, with a split in two Midwest Conference games, will be at Grinnell, winner of two Beloit and Monmouth will match 0-2 records at Monmouth, and Ripon and Carleton will put 1-1 records on the line at Carleton.

Carroll will host Augustana in a College Conference of Illinois game.

Mantle May be Out of Lineup Until Sunday

Yankee Slugger May Return for Fourth Tilt Against O'Toole

NEW YORK (AP) — Mickey Mantle definitely will not play in today's second game of the New York-Cincinnati World Series and most likely will not return to the lineup until Sunday, when the Yankees and Reds meet in the fourth game.

The switch hitting slugger, who slammed 54 home runs for the Yankees during the regular season, hasn't fully recovered from minor surgery for the removal of an abscess on his right hip. He sat out Wednesday's opener, won by the Yankees on Whitey Ford's two-hitter and homers by Elston Howard and Bill Skowron.

"I can't play tomorrow," Mantle said emphatically Wednesday night. "The wound is still draining and very painful. I don't have any trouble swinging right-handed but I can't swing left-handed at all. Also, I can't throw and I can't run, either."

Since the Reds intend to follow right-hander Joey Jay, today's pitching choice, with Bob Purkey, another right-hander, in the third game, on Saturday, it is very unlikely that Mantle will play until Sunday, when Cincinnati Manager Fred Hutchinson is expected to come back with left-hander Jim O'Toole, who pitched a six-hitter in Wednesday's losing effort.

Mantle took batting practice Wednesday, swinging only from the right side. The first time, he couldn't hit a ball out of the infield. In his next turn in the batting cage, he tagged a couple in typical Mantle fashion, one ball winding up in the left field bleachers.

Roger Maris, the other half of the slugging M and M twins, had a bad day at the plate. He failed to hit safely in four trips to the plate, popping up, striking out, grounding out and fouling out to the catcher.

"I don't feel too badly about it," he said, "as long as we won."

ARD Slates 4 Basketball Meetings

Although the football season has just moved into high gear, the Appleton Recreation Department is looking ahead to basketball and has set up organizational meetings for four leagues next week.

All meetings will be at 7 p. m. in the recreation office, and team managers or a representative are asked to attend.

The Industrial League will meet Monday, Major AAA and Major AA Leagues Tuesday and the Men's Church League Thursday. (Entry fee is \$25 per team.)

They'll Do It Every Time

Calls Boyer Better Than Cox

Berra Says Ford Pitched Best Series Ball Since Larsen's Perfect Game

BY YOGI BERRA

Written for the Associated Press

NEW YORK (AP)—I feel like hanging up my typewriter. So much has happened in the last 24 hours. Maybe I ought to hang up my bat for popping up in the first inning with the bases loaded. But we won the first one and that's all that matters.

No matter what happens in the remaining games there are two Yankees I will always remember. They are Whitey Ford and Clete Boyer. This was the greatest game Whitey ever pitched because of how he got the job done and because he was under pressure through the seventh inning when he got Gene Freese with

a man on. If he'd popped one played the old Brooklyn Dodgers into the seats it would have been we thought Billy Cox was a great tied up.

That makes three straight shut-the-greatest. People talk about outs or 27 scoreless innings in a his "great hands." Heck, they're row for Whitey. The Reds are normal size. It's his reflexes.

The Play of Plays
On Sunday—because I think Mantle backhanded a Gene Freese

ager Ralph Houk and all us shot but later on, against Dick Yankees would like to see him Gernert, he pulled the play of beat the scoreless string hung up plays. He slid into the hole to by Christy Mathewson (28 1-3 in his left on his belly and I believe nings) and the Babe Ruth record he was the only one in the park (29 2-3 runless innings). He won who knew where the ball was. It 25 American League games this was in his glove. AHS Enters Hartford Test

Terror Harriers Split With Neenah And Shawano

The Appleton High School cross country team will enter Hartford Invitational meet for the first time this year.

The 22-school affair is slated to start at 10:30 a. m. Saturday.

In their most recent start, the Terror split even in a double duel at Pierce Park. AHS nipped Neenah, 27-29, but lost to Shawano, 25-30.

Neenah edged Shawano, 27-29, giving each team a 1-1 record in a remarkably even contest.

Shawano's Jim Kaquatosh placed first in 11.27. Phil Nordgren, of AHS, was right behind in 11.29. Jim Hammill of Neenah, was third.

Defending Champion Madison West and Brookfield are considered the top threats in the Hartford meet.

'62 CHEVROLET JOBMMASTER TRUCKS WITH NEW High Torque Power!

Here's new High Torque power for every weight class—light, medium and heavy... the most powerful engines in Chevrolet history... sure saving power and dependability for every job!

There are plenty of powerful reasons for Chevy superiority. High torque reasons. Reasons that range all the way from a mighty new High Torque 409 V8* for heaves, right down to the thirty Sixes... including the High Torque 261 Six* that's available for the first time in light-duties.

Loads of other reasons, too. Like the new work styling with downward-sloping hoods

that let drivers see up to 10½ feet more of the road directly ahead. Like Chevrolet's proved Independent Front Suspension for even smoother riding, easier working trucks. Like the heavier duty hypoid rear axles for middleweights and the rugged new I-beam front axles* (9,000- or 11,000-lb. capacity) available for extra-tough jobs on Series 80 heavyweights. Like the longer lived mufflers. Like work-proved Corvair 95's (2 pickups and a panel) that haul up to 1,900 lbs. of payload with low-cost dependability and sure rear-engine traction. Like to know more? See your Chevrolet dealer.

Yankee Third Baseman Cletus Boyer rises to his knees to throw out Dick Gernert in the first game of the World Series Wednesday. Boyer made a diving stop of a hard smash and drew a thunderous ovation from the crowd after the play. The Yankees won the game, 2-0.

Whitey Throws 115 Pitches; Mantle Swings, Says 'Ouch'

NEW YORK (AP) — Whitey Ford made 115 pitches in hurling his two-hit shutout against Cincinnati in the opening game of the World Series Wednesday. Jim O'Toole made 107 pitches in the seven innings he worked.

NEW YORK (AP)—Cincinnati now has lost five straight World Series games to the Yankees. The teams last met in the classic in 1939 with the Yankees winning four straight.

NEW YORK (AP) — Whitey Ford's 2-0 shutout of Cincinnati for the Yankees in the World Series opener Wednesday was the fourth by that score on Oct. 4 in the Series in the last nine years.

In 1952, Alie Reynolds of the Yanks beat the Dodgers 2-0. On Oct. 4, 1955, Johnny Podres blanked the Yanks 2-0, giving the Dodgers their first world championship. A year later, on Oct. 4, 1956, Don Larsen of the Yanks retired 27 consecutive Dodger batters for the only perfect game in World Series history. The score was 2-0.

NEW YORK (AP) — Manager Ralph Houk of the Yankees said he needed only one word from Mickey Mantle to become convinced that his star center fielder was too ill to play in the opener. Mantle, he said, took one practice swing and said "ouch."

NEW YORK (AP) — Bobby Richardson, the little Yankee second baseman, won a new sports car last year for being named the outstanding player in the Series. When Bobby started off with three hits in Wednesday's opener, one of his teammates yelled:

"Hey, Boh, what's the matter. The ash trays full?"

Bruhn Blasts Defensive Play Of Badgers

Hopes Changes Will Beef Up UW for Indiana Game

MADISON (AP) — Coach Milt Bruhn of Wisconsin admits one thing—his Badgers will have to improve on defense if they expect to be a contender in the Big Ten football race.

The Wisconsin defense, says the coach, was "conspicuous by its absence" against Michigan State last weekend. The Spartans won with ease, 30-0.

"We didn't have any," he added.

"And if we don't improve against Indiana, we are in real trouble. We should win this one. If we don't brother—"

Bruhn said Wednesday that his players "did a lot of arm tuck" against Michigan State. "When you are up against run-downed teams like Michigan State, you have to hit them," he added. "And if you don't hit them, you have to pursue. We had no pursuit whatever."

Critical of Blocking

The Badger coach also was critical of his team's blocking. He called it "pitiful at times."

Bruhn, however, is not downhearted. The practice sessions this week have given him new hope.

"Determination and desire, are what we need," he said.

Bobcat Found in Northern Counties

BY CLARA HUSSONG

of its cycle, the bobcat population in the state may reach up to 3,000. Bobcats are most apt to be found in the northern counties. This is not because they are more numerous there, but because they are more elusive. In recent years, however, some have been seen in various areas farther south.

Three Types

At one time Wisconsin had three "wildcats." They were the bobcat, the puma, also known as cougar, and the lynx. The bobcat is the smallest of the three. It is native to the northern part of the state. The puma is native to the southern part. The lynx is native to the central part. All three are now considered endangered species.

Wildlife authorities in the state estimate that in the peak years

mon in the state, early records fail to show that the puma or panther have been seen in Wisconsin, though it also from a house cat was found in all parts of Wisconsin and Taylor counties by re-construction. Because of their large size, some authorities believe the lynx may be making two months later. Two or three size. They were considered dangerous to humans and livestock, and were hunted down in forest cover in some areas.

Hartley H. T. Jackson, in "Mammals of Wisconsin," (University of Wisconsin Press), says a north woods spot, you should know where types of habitat. The den, used by the puma, is now and as a shelter in bad weather, considered extinct in the state, although occasional sightings are still reported.

Bobcats, Really

The lynx, too, is thought to be good-sized house cat, and weighs morning, and in the late after-noon On cool fall mornings it may climb to the tip of a tall poultry and farm yards, but in its present status of an uncommon species living in wilderness areas it is not often considered.

Natural Habits

Most of the bobcat's prowling hiss and spit. They are most hunting is done at night, but noisy during the mating season. occasionally it is abroad in the and when cornered or attacked. Next to man, the great horned owl is the bobcat's worst enemy. At one time the bobcat raided the barns and farm yards, but in its present status of an uncommon species living in wilderness areas it is not often considered.

JFK Signs Bill to Regulate Mexican Farm Help Recruiting

WASHINGTON (AP)—President Kennedy signed Wednesday a bill regulating the recruiting of farm workers from Mexico, but said the measure does not include provisions "which I believe necessary to protect domestic farm workers."

The President said studies clearly show that the Mexican labor program "is adversely affecting the wages, working conditions and employment opportunities of our own agricultural workers. Large numbers of whom are unemployed or underemployed."

Congress ignored a number of significant recommendations made by Secretary of Labor Arthur J. Goldberg intended to set stricter standards for the importation of workers and provide safeguards for U. S. farm labor.

IT'S LOVE AT FIRST BITE South African Finances Broadway Musical
NEW YORK (AP) — The entire \$350,000 needed to finance production of Broadway's new musical "Kwamina" was posted by John Schlesinger, a South African businessman.
The show, written by Robert Alan Arthur with music by Richard Adler, concerns present-day affairs in an emergent African nation.

Borge Program Fine, Great Artists Give Salute to Benny

BY CYNTHIA LOWRY
AP-TV Radio Writer
NEW YORK (AP)—Network television Wednesday night held the promise of a solid three and one-half hours of comedy: premiere of Steve Allen's show and the debut of a new animated cartoon series on ABC and a Victor Borge and a Jack Benny special on CBS.
Borge, aided by Hermione Gingold, pianist Leonid Hambro and some very witty music and dancing, measured up handsomely. Steve Allen was back in a familiar format but perhaps trying a little too hard.
The animated cartoon, "Top Benny special — the Philadelphia Cat," was disappointing. And the Orchestra, Van Cliburn, Roberta Peters and the Benny Goodman sextet lutes Jack Benny, was an hour and

Bernard LeMoine To Present First Faculty Recital

Pianist Bernard Lemoine, assistant professor of music at Lawrence Conservatory, will present the first faculty recital of the college season at 8:15 p.m. Sunday in the Music-Drama Center's Harpo Hall.
The recital is open to the public without admission charge.
Lemoine has chosen works of Bach, Scarlatti, Beethoven, and Chopin in this, his second recital since joining the conservatory faculty three years ago.
Lemoine, a Springfield, Mass., native, has a bachelor of music degree from Oberlin College, and a master degree from the University of Illinois.
Several scholarships have figured in his musical past, among them a coveted Federal Republic of Germany grant, awarded in 1957.
He also studied with Charles Mackey of Springfield, Jacob Radnisky at Oberlin, and Stanley Fletcher at Illinois. A year's study with Muriel Kerr is noteworthy in his experience. Miss

Kerr will appear on this year's Lawrence Chamber Music series.
Before coming to Appleton, Lemoine was on the University of Illinois music faculty for two years. He made numerous appearances in chamber music performances there and in the Chicago area, and soloed with the university's symphony orchestra.
While still in New England, he appeared in a debut with the Springfield Symphony, and in re-price debacle.
It said that since May, broiler prices to producers have been at or below cost of production and at the lowest level of 20 years' of record keeping on prices.
WASHINGTON (AP)—The Agriculture Department said today the nation's broiler industry has been slow to adjust to what the department called this year's record keeping on prices.
"Despite the low prices, hatchings through early September continued to exceed last year, and thus were mostly at record high levels for the season," the department said.

CLOROX gives you the only kind of cleaning power that gets out suds-proof body dirt...*right in your washer!*

You'll never have really clean washes till you realize that oily body dirt takes a special kind of cleaning power...the Clorox kind. Weaker bleaches just won't do. Detergents can't get rid of it without tiresome hand-treating. Suds-proof body dirt is too stubborn to be floated away or covered up. It must be dissolved. Adding Clorox to your suds dissolves it...right in your washer.

U.N. Strangely Quiet On Cuban Inhumanity

Eloquent Speeches, Fanfare Don't Change Fact Castro's Executions Go on, Writer Says

WASHINGTON — Notwithstanding how quickly they line up if there's a riot in the streets of a South African town, but say nothing by way of protest when day after day human beings are placed before firing squads in Havana and shot to death. Why is such cruelty ignored? These episodes are taking place just 90 miles away from the United States. her independence. Today, there is instead a blind indifference to the cruelties of the Cuban dictator not only by the United States government but by virtually all the other nations that call themselves humane and which make high-sounding speeches extolling the U.N. as an exponent of human rights.

The Organization of American States sent an investigating commission to the Dominican Republic recently, but apparently no similar mission is to be undertaken in Cuba.

But it did cause another part of the organization—the Inter-American Commission on Human Rights—to cable the Cuban foreign minister asking for information on the possible death sentences of 11 Cubans now being tried. Among the accused is Alfredo Riva, former editor of a newspaper in Havana and the only member of the Inter-American Press Association remaining in Cuba.

Air Force Flies Girl Home to Japan to Die

Daughter of Retired Army Officer Unconscious for Year After Operation

TOKYO (AP) — Mira Frances Oensel, 10, returned Wednesday to Japan—"the land she loved so much"—to die.

A big U.S. Air Force jet tanker, converted into a mercy plane, flew her across the Pacific to her grieving father, Frank M. Oensel, 72, a businessman and retired U.S. Army officer. Mira, once so bright and active, has been unconscious since a brain tumor operation in Augusta, Ga., in September 1960. Beside her on the long voyage from Georgia, across Alaska and the Pacific, was her Japanese mother, Takako.

Mira, once so bright and active, has been unconscious since a brain tumor operation in Augusta, Ga., in September 1960. Beside her on the long voyage from Georgia, across Alaska and the Pacific, was her Japanese mother, Takako.

The Oensels were visiting in Georgia when the child, who had long shown no previous symptoms of the disease, fainted. Oensel had to return to Tokyo to his job as much.

Ripon to Get New Manufacturing Plant

From the airport, an ambulance took her to a civilian hospital in Tokyo.

The Air Force had learned of Mira's plight and offered to reunite the saddened family. The child, her mother and Dr. Hugh F. Sisson of Augusta, Ga., traveled aboard a KC135 plane used by maintenance technicians on an inspection tour of Alaskan and Pacific bases.

There is no way to tell how long she will live," Oensel said. "We'll let her spend her last days in Japan, the land she loved so to return to Tokyo to his job as much."

TRY THESE EASY Frank's Kraut RECIPES

KRAUT PORK CHOPS WITH APPLE RINGS

(Makes 4 servings)

1/2 cup butter or margarine	4 lean pork chops
1/2 cup currant jelly	1 No. 2 can kraut
3 medium-sized apples, cored and cut in rings	1 cup chopped onions

In a skillet, melt butter or margarine and currant jelly. Add apple rings and cook until apple rings are browned. Remove apple rings and place pork chops in skillet, brown lightly on all sides. Meanwhile, combine kraut and onions, place on top of browned pork chops. Cover and cook 30 minutes over low heat. Uncover and place apple rings on top of kraut mixture, cover and continue cooking 30 minutes.

KRAUT APPLESAUCE SAUSAGE BAKE

(Makes 4-6 servings)

1/2 pound link sausage	2 cups applesauce
1 No. 2 can kraut	1 cup grated processed Cheddar cheese
1/2 teaspoon pepper	
1/2 teaspoon salt	

In skillet, pan-fry sausages until browned. Combine kraut, pepper and salt. Place half of kraut mixture in a 1 1/2 quart baking dish. Add half the applesauce and sprinkle with 1/2 cup cheese. Arrange browned sausages on top. Cover and bake in moderate oven (350°) 1 hour. Serve immediately.

Profits Fast Catching Up With 1960 Figures

BY SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—Profits are picking up speed in their six-month climb from their recession months. A.T.&T. is among the low. The bulls hope this foretells a profit explosion.

The bears think the gains will fall short of that. But early returns on the third quarter, now starting to flow in, show average net income after taxes running ahead of the year-ago figure for the first time this year.

Stock traders will watch the profit trend closely, since it reflects both the extent of the business recovery and the success of management in coping with rising costs and with squeezes on profit margins.

The first half of the year, despite a good pickup between the second quarter and the first, showed earnings still trailing 1960.

Should Catch Up

But early returns for the first nine months indicate that profits should pull even with the year-ago figure. This gives the whole of 1961 a good chance to top the 1960 returns.

The early returns so far are almost exclusively from corporations whose fiscal year ends before the calendar one. Thus the nine months results go back a month or so into 1960 and cover more recession time than will those firms using the calendar year. The recession low commonly is put at March.

But the nonconformists also report a third quarter that doesn't include September when business as a whole usually picks up.

50 Doing Better

Third quarter returns of 74 corporations reporting so far show 50 of them doing better this year than in the summer months of 1960. Four operated in the red this year, against six a year ago. As a group the 74 report profits of \$138,556,000, compared with \$126,706,000 for the same companies a year ago, or a gain of 9.3 per cent.

These figures exclude the three months report by giant American Telephone & Telegraph. Add these in and you have 75 companies with total profits of \$470,598,000 against \$444,739,000 but the percentage falls to 5.8, since the Bell System was doing a lot better a year ago than were many of the other 74.

Second Quarter Slow

Among the other gamers in the third quarter this year were department stores, office equipment, farm equipment and some machinery and tool companies.

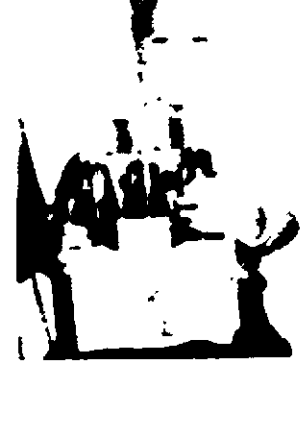

The third quarter gains over last year stand out against second quarter results, which still trailed 1960 by 2 per cent, and the first quarter returns, which

Two Senators Differ on Nixon Position for '64

Mundt Expects Draft At Convention for Ex-Vice President

WASHINGTON (AP)—Two Republican senators disagreed Wednesday on whether Richard M. Nixon's decision to seek the California governorship eliminates

his as a possibility for the GOP. "If he is elected gov. the candidate, and this I will not error, he will be a powerful force do," Nixon said.

Sen. Clifford P. Case, R-N.J., in the next convention. No California liberal element of the GOP, said Nixon. "I'm glad he's running for gov. didn't entirely rule out the possibility of a 1964 draft. He limited himself to saying he would not be a candidate for the nomination and didn't expect to get it. Last weekend, Nixon said in response to newsmen's questions on whether he could be drafted, "the answer is no."

But Sen. Karl E. Mundt, R-S.D., said in a separate interview he is certain that if Nixon is elected governor of California there will be a movement to draft him for answer is no."

Republican leaders who have studied the transcript of Nixon's Sept. 27 announcement at a news conference have noted that he out of the primary, has projected a vigorous battle in a contest in which there may be at least two other entries.

Gov. Goodwin J. Knight, feuding with Nixon over whether Knight was promised a state job to stay out of the primary, has projected a tough primary fight and do it convincingly. "If Nixon can win a tough primary fight and do it convincingly, it will help him in the general election," Mundt said. "He will be in a much stronger position to challenge his Democratic opponent if he has a good primary victory under his belt."

"Party workers always get stirred up in such primaries and

Consumers Spend Most of U.S. Money

BY SYLVIA PORTER

Not ever in history has the U. S. consumer been analyzed so ably the most crucial force in our anxiously and relentlessly for economic structure.

Who are "we"? What are "we" likely to do? Why? For some revealing points, read the answers in the following interview with A. W. Zelomek, president of the International Statistical Bureau, visiting professor at the University of Virginia Graduate School of Business Administration, and expert on the U. S. consumer work and play.

Q. Porter: Who is the so-called American consumer?

Nutrition Facts Based on Latest A. S. Department of Agriculture Data, American Research & Technology Corporation

1 serving of Broadcast Hash gives you 3 times more protein than you get from the cereal in a serving of shredded or flaked wheat. 3 times more protein than you get from the cereal in a serving of corn flakes. You've never had a breakfast with so much get-up-and-go!

More proteins... and they're complete proteins! Corn flakes and wheat flakes with the usual added nutrients, and even oatmeal, are deficient in complete proteins. Broadcast Hash gives you plenty of complete proteins. Plus natural vitamins. And enough carbohydrates for energy, but not enough to "overload" your system.

So easy to fix, too. Just open the can, heat, and serve. Fork-break the hash in a skillet and brown it. Or slice into 3 or 4 slabs and pop them under the broiler. Great as is. Great with an egg on top. Either way, it's a breakfast with get-up-and-go!

Living Costs Rise

Q. Porter: How will consumers react to rising living costs?

A. Zelomek: The new U. S. consumer, in his desire for more and more services, is responsible in large part for the rising cost of living. Since the base years of 1947-49 on the government's consumer price index, prices of services have risen 53 per cent as compared with 18 per cent for prices of commodities. Prices of services which have jumped far more than 53 per cent are auto insurance, transit fares, obstetrical care, hospital rates, men's haircuts. Short of staying at home and doctoring themselves, there is little consumers can do to cut depending more and more for services. In addition, since these are the very services which lend themselves least to automation, rising labor costs cannot be offset by increased productivity.

Q. Porter: Do you expect consumers to add power to this upward trend?

A. Zelomek: The U. S. consumer has not been frightened at any time since the end of World War II by changes in the economy, dentists? Who can deny that their tonsils out today are sent to hospitals for as long as needed? While consumer buying today is not as dynamic as many anticipated, over a period of time, public buying does reflect a favorable turn in the economy and there is no reason to expect 1961 and 1962 to be exceptions.

Service Spending

A. Zelomek: The most dramatic changes in the consumer spending pattern in recent years? The extent to which we are little consumers can do to cut depending more and more for services. In addition, since these are the very services which lend themselves least to automation, rising labor costs cannot be offset by increased productivity.

Tribe Can't Make Indian Souvenirs As Cheap as Japs

MACY, Neb. (AP)—To the Omaha Indian tribe, trying to build up a local industry, the idea of making Indian souvenirs looked like a natural.

An adult education class in arts and crafts started the business last year and made a profit disposing of handiwork through local outlets.

But when the Indians branched out they found the market glutted with "Indian" souvenirs — made in Japan.

"They're just able to make things cheaper than we can," said craftsman Wilson Wolfe.

The Indians haven't given up though. With some of the white man's sales promotion and a shift to low-cost items, the Omahas hope to boost sales this year.

The souvenir business is part of a self-help program designed to get the Omahas away from their dependence on agriculture.

Monkey Making Monkeys Out of Texas Lawmen

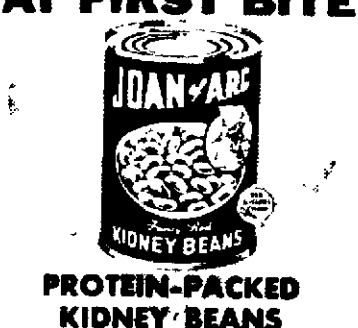

DALLAS, Tex. (AP)—A hungry monkey with a fine throwing arm has cowed a section of Dallas with his icebox raids.

"It's a big, husky Capuchin," said Poundmaster R. G. Alexander. "When he can't get enough food out of garbage cans, he scouts for an open window, re- moves the screen, enters the house, and makes for the refrigerator.

The monkey first tosses all the eggs on the floor and eats the children's fruit. If discovered, he bares his teeth, throws the fruit at the human and makes his escape.

\$8,750 Goal Set in Waupaca Drive

Community Chest to Open Annual Campaign Oct. 19

WAUPACA — The kick-off date Mrs. Austin Trull, Fourth Ward, for the 1961 Waupaca Community Chest drive is Oct. 19. Mrs. Trull, and Mrs. Edna Hart, Fifth Ward, and Mrs. Mary Mother and Donald Brun, Sixth Ward, are the participating agencies. The chiefs will meet Oct. 19, the board of directors will meet Oct. 20, and the directors will meet Oct. 21.

The directors have been busy with plans for the campaign to coincide with the United Fund Community Chest drives throughout the nation.

Tom Holly and Louise Dahlke were named co-chairmen of the volunteers. Holly said this is Waupaca's single annual appeal to meet needs of the community. Louise Dahlke asked that all Waupaca residents support the Community Chest.

The co-chairmen announced the following ward chiefs: Mrs. Edna Hart, First Ward; Mrs. Mary Mother, Second Ward; Mrs. Gordon Peterson, Third Ward; Mrs. Rongene Schweitzer, Fourth Ward; Mrs. Austin Trull, Fifth Ward; and Mrs. Mary Mother, Sixth Ward.

2 Companies Discuss Trouble in Sewerage System

TIGERTON — Representatives of M. and S. Electric and Gerum Plumbing discussed troubles with the village sewerage system at a village board meeting.

There is moisture in the electrical system, which necessitated the replacement of five switches in the system. It was suggested the village install different switches in the lift station.

The school board has made an application for a permit to connect water to the new addition.

A water and sprinkler system to be installed at the hospital by an outside company was discussed.

Mapping of the streets has been completed. A study of the village streets and extensions and new surfacing was made.

Council Names School Patrol Supervisor

MARION — The Marion Community Council this week approved the appointment of Henry F. Schmidt as school patrol supervisor.

The council also made the street in front of the school from the Evangelical United Brethren Church to Sherman Street a permanent one-way street.

Waupaca Gets 8th in Meet

Runners' Times Show Improvement in Test At Wausau High

WAUPACA — The Waupaca High School cross country team finished in eighth place in the 11 school invitational meet at Wausau High School.

Improvement of the local team was noted by the fact that Dave Volk, Comet leader, closed in 13th place and chopped two minutes off of the time needed to win the Manawa showing.

Jim Kaquatosh, Shawano's brilliant runner, lowered his own course record from 11:08 set last year to 10:52. Wausau won the meet with a well balanced team, all five of their runners scoring in the first 25.

Waupaca's runners closed as follows: Volk, 13th; Larry Hammond, 17th; John Woody, 48th; Larry Doyle, 56th and Tom Diver, 60th. Other Waupaca runners closed as follows: Rudolph Seul, 72nd; Robert Jones, 75th, and John Masterson, 77th.

Eighty boys competed from Shawano, Marshfield, Clintonville, Wisconsin Rapids, Eau Claire, finishing in that order ahead of Waupaca, Rhinelander, D. C. Everest and Butternut.

Brillion Man Named Graduate Assistant

BRILLION — Ronald Bergmann, son of Mr. and Mrs. Earl Bergmann, has been awarded a graduate assistantship with the industrial education department of the University of Illinois, where he is working toward a masters degree. He will assist in research in methods and procedures of teaching the blind to use industrial machines and tools. Bergmann is a graduate of Brillion High School and Stout State College, Menomonie.

Mock Convention Precedes Student Council Election

SEYMOUR — Marlin Nelson is the new vice president of the student council at Seymour Union High School. Phyllis Krahn was elected secretary. Chris Anchut, retiring vice president, is the new president.

Nelson and Miss Krahn represented the Loyalist candidates.

Police Busy With Rash Of Accidents

SHAWANO — Shawano County traffic police were busy with a rash of auto accidents during the wet and rainy weekend.

A car driven by Carl Hoppe, South Boardman, Mich., was hit by a car driven by Adolph Luch, Marion, Sunday. Hoppe was attempting a left turn off County Trunk M four miles east of Caroline. Mrs. Hoppe received a broken arm and facial cuts. Damages were estimated at \$350.

Damages totaled \$300 when cars driven by Harold Reissman, 36, Marion, and William Wegner Jr., 25, Shawano, collided on County Trunk M three miles east of Pel-la Sunday.

A car driven by Leslie Kraft, Bowler, was forced off the road 15th in that order ahead of Waupaca, Rhinelander, D. C. Everest and Butternut.

The occupants of the other car, police said, stopped to see if Kraft or his companions, Larry Kressen and Jerry Brady, Bowler, were injured. Police said the boys then got into a fight with the other motorists.

Judith Walkowski, 20, Oshkosh, told police she drove her car into a herd of cattle on U. S. 45 at the Birmannow town line. Damages to the car were estimated at \$150.

Damages were estimated at \$100 to a car driven by Gary Madars, 12, Clintonville, when the car was driving was forced off the road at the crest of a hill on a town road seven miles west of Shawano.

Clintonville Cubs Set Up Dens, Received Awards

CLINTONVILLE — At the organizational meeting of the St. Rose Cub Scout Pack 23 held at the St. Rose school hall, dens were set up, den mothers assigned and awards presented.

Cubmaster Marvin Christopherson explained the rules and duties of the parents.

Advancement Chairman Willard Fletcher presented awards to Patrick Ziegler, David Dieck, John Tschert, Tom Schommer, David Ole, Frederick Ole, Peter Trojien, Mike Casey, Mike Hart, John Daniel Dieck, Daniel Christopherson, Steven Heitz, Mike Steyer, John Tschert, Mike Dieck, Mike Dieck and David Zoch.

The new den mothers are Mrs. Eugene Schilling, Mrs. Eugene Smith and Mrs. A. Tschert. Assigned as den chiefs were Charles Kuntzsch, John Hoffman, Roy Heitz, Mike Dieck and David Zoch.

The pack committee and the den mothers held a planning meeting. It was decided that all dens would be presented to all dens at the next pack meeting on Oct. 2 and all projects will be done.

Committees Named To Plan Dump Grounds

CLINTONVILLE — The new dump grounds will be located on the north side of the town, near the intersection of the town and county roads. The dump grounds will be used for the disposal of solid waste.

Special Council Meeting Called

Waupaca Aldermen to Consider Vacating Street Near Foundry

WAUPACA — A special meeting of the city council will be Tuesday night to pass preliminary resolutions calling for the installation of sewer and water to the Arthur Hardy development and for vacating part of Division Street near the Waupaca Foundry.

Ald. Marlin Looker told the council the foundry is planning to expand and wants to build on a section of the street in line with other buildings already located along the street.

Although there was some council opposition to prospects of vacating part of the street, it was decided to proceed with the resolutions and public hearing.

ACP Program Changes to be Reviewed

Special Meeting Set for Friday at Courthouse Annex

Changes and a review of the ACP program will be discussed at 8 p.m. Friday in a special meeting at the Outagamie Courthouse annex in Appleton. Joseph D. Rickert, Outagamie County ASC office manager, will be in charge. Farmers and city people are invited to attend the meeting. Rickert said. "There have been a number of changes made on the state level which are quite important. This provides a good opportunity to learn about them," Rickert said. One example cited was under the crop cover provision. Hay now can be plowed up after Aug. 1 of the fourth year. Formerly this could not be done until Dec. 31, Rickert explained. Assisting Rickert with the program will be Outagamie County Agent John Powers.

Uruguay Plans to Limit Activities Of Red Embassy

MONTEVIDEO, Uruguay (AP)—The Soviet Union's sixty-man diplomatic staff in Uruguay may soon be limited in its activities, sources close to the government executive council said Wednesday. They said Soviet and other iron curtain delegations here are expected to be accorded treatment similar to that imposed upon Uruguayan diplomats in the Soviet Union.

The Soviet Embassy in Montevideo, with the largest personnel in the hemisphere, has been reported the center of Communist activities in the southern part of the Americas.

Miss Marjorie Williams, Appleton High School English teacher, followed her great-grandfather into the teaching profession and to Appleton. Edward West, her great-grandfather, was the first teacher in the first public school in Wisconsin territory, at Milwaukee in 1837, and later built Appleton's first water power dam and canal. Miss Williams also is faculty advisor for the AHS newspaper, the Talisman.

Teacher Descendant of Early Appleton Leader

Miss Marjorie Williams, an they offered him and became the English teacher at Appleton High first teacher of the first public School, did not feel that she was school in Wisconsin Territory. coming to a strange city when During his first year of teaching, she came to Appleton some years he had 40 students, and his duties included setting copy and mend- ing quill pens in addition to his actual teaching responsibilities.

In 1852, West moved to Appleton, where he immediately recognized the water power possibilities of the Fox River.

In 1855, he purchased 533 acres of land on the south side of the river, including what were then called "The Flat", and "Grand Chute Island".

He began construction of a water power dam at once, and in 1858 dug a small canal which furnished power for a woolen mill and a hub and spoke factory, two of the city's earliest industries. In 1837, West was approached by the newly elected school trustee power canal, which was the beginning of Appleton's now intricate system of water power.

Upon completion of the canal, a mass meeting of the citizens was held, and West was presented with a solid silver tea service which bore the inscription "Presented to Edward West by the citizens of Appleton as a token of their appreciation of his enterprise in building the Grand Chute Island Canal."

West died in Appleton in 1903. He was survived by three children, one of whom was the grandmother of Miss Williams.

Her teaching duties at Appleton High School are vastly different from those her great-grandfather undertook more than a century ago. Miss Williams says. In addition to teaching English classed for the editorial staff of the school newspaper, the Talisman.

Chamber of Commerce officials in Appleton.

Cities of Appleton's size may accept 75 per cent of the cost of community development programs from the federal government, if the federal government approves the program, Giles Planagan, assistant secretary of the Appleton chamber, reported. Planagan and other committee members and a planning contingent from Green Bay met with federal officials in Chicago.

V. I. Minahan Jr. reminded fellow committeemen that the Appleton area had instituted the first regional planning program in the state financed completely with local funds.

Spell Out Controls

Local efforts of the chamber and the city council in community development were pointed out. Committee members were proud of this independent local effort and were reluctant to interrupt it by taking federal money and controls.

Explicit federal controls are written into the bill that appropriates the money for communities. They include approval of the general development program by the government. Before the plan is approved zoning ordinances must meet certain standards, the community must set up an officer to administer the program, families displaced by urban renewal must be rehoused and other requirements must be met. Planagan pointed out.

Minahan, reporting on the parley with National Chamber officials, reviewed the somewhat unsuccessful history of federal aid programs from the post-war aid to housing to the present and total aid for residential and commercial improvements and the planning of these improvements.

Last Local Control

He brought back from the meeting the suggestion that local control, initiative and leadership had been lost when the federal government became involved.

A meeting with David Carley, director of the State Department of Resource Development, and federal officials that would provide an opportunity for further study of the federal aid scheme was suggested. No date was set. Mayor Clarence Mitchell suggested that the Appleton city council be invited.

Meetings with Lawrence College President Douglas Knight and Postmaster Francis Sumnitch were scheduled. Knight will tell of Lawrence long-range projects that involve the city. Sumnitch will be asked to describe the future needs of the post office.

Sen. Draheim Urges More Effort To Revise Wisconsin Tax Policies

Broad Sales Tax Needed, Oshkosh Tax Group Told

OSHKOSH — State Sen. William A. Draheim, Neenah, Republican chairman of the Legislative Joint Committee on Finance, here Wednesday rejected increases in present taxes to balance the state budget in favor of another attempt for basic tax revision with a broad-based sales tax to relieve income and property taxes.

Before the Oshkosh Taxpayers Association at Hotel Altheim, Draheim said that taxpayer groups and others interested in "realistic tax reform" have created a psychology for tax revision throughout the state that must not be permitted to falter now.

Draheim predicted the majority party would not take the "easy way out" by increasing income taxes because it is too cognizant of its responsibility.

Discourage Business

"We already rank too high on income taxes," Draheim said. "They discourage business from expanding and providing more jobs. They discourage individuals from investing their capital in Wisconsin. Our income taxes need relief rather than increases."

The senator said the reasons given by Gov. Nelson for vetoing bill 707-S, the tax revision bill, were both contradictory and inaccurate.

"The governor turned down our TAPPI Schedules 2nd Meeting in Wausau Oct. 17

Afternoon tours of Wausau Iron Works and D. J. Murray Manufacturing Co., both in Wausau, and a dinner at the Wausau Club are on the agenda for the second meeting of the Lake States Section of TAPPI Oct. 17.

Jack R. Haller will discuss the D. J. Murray operation and Don Gruening the Wausau Iron Works.

Civil Service Status Asked for Counsel

OSHKOSH — Judiciary committee of the Winnebago County Board Wednesday agreed to recommend to the County Board at its budget session later this month, that the family court commissioner be placed under civil service status. He now is appointed 4 20 p.m. Sept. 27 after police received a complaint that there was a woman sleeping in E. South Alley.

tax bill. He said first that the relief granted to business was not high enough, and then that it was too high.

He said farmers would pay a net of \$1,000,000 more under the bill. Draheim said the people are when official figures on total farm income shows that they would pay at least \$4,000,000 less. He said the bill did not conform to the blue ribbon committee recommendations, yet it can be and has been demonstrated that the bill parallels the blue ribbon committee recommendations to a startling extent," Draheim said.

Draheim said that the governor has mentioned the possibility of a sales tax on luxuries as a major revenue producer.

"Maybe that indicates we're on our way. He has been talking about the need for property tax relief and relief for business so long that he should be morally

Labor Group Opposed to Bookmobile

The Appleton Federation of Labor is opposed to the city appropriating about \$40,000 for a library bookmobile.

Mayor Mitchell has received a letter from Harold L. Clark, federation secretary, saying that a bookmobile is not a permanent solution to library needs.

"Appleton needs another library, or possibly more," Clark states, "and this would mean more work for more people."

A library building would be here for 20 years and more, he says. He also suggests using public school libraries for branch libraries.

The library board requested a bookmobile last year, but other city needs were given priority. This year the request is being renewed.

Library trustees reported at that time they did not think using school libraries for branches would be wise. There would have to be numerous duplications of books, they said, as well as more personnel than are needed to operate a bookmobile. Keeping schools open to the public in summer for library service would pose a big problem, they said.

Fined for Drunkenness

Mrs. Blanche Hottenstine, 42, James Madison Junior High School, was fined \$10 after she pleaded guilty to a charge of drunkenness. She was arrested at 4 20 p.m. Sept. 27 after police received a complaint that there was a woman sleeping in E. South Alley.

committed to it," the senator said.

"I feel the legislature has done all the compromising. Now it's up to the governor," Draheim declared.

Promised Relief

"Thinking and concerned persons, both in and out of government, have been issuing warnings about our high income and property taxes and their restrictive nature so far as the healthy growth of the economy is concerned. I know that taxpayer groups, for instance, back in 1957 supported a specific proposal for a sales tax to reduce income and property taxes. The governor made a great thing also of high and restrictive property taxes in his first campaign prior to his 1959 election. He promised to do something to encourage business growth," Draheim said.

Draheim urged the taxpayer groups to continue their work to see that the expenditure side of the ledger is watched.

The Neenah senator today cancelled his speech before the Rotary Club because of his committee's meeting with the governor on compromise tax revision.

Firm Won't Talk About Wage Cuts

Valley Iron Works executives had no comment this morning on whether salary cuts at Allis-Chalmers Manufacturing Co. affected their concern, an Allis-Chalmers subsidiary. Employees said some salaried personnel had received cuts.

The Milwaukee manufacturer of heavy industrial equipment cut salaries in all Allis-Chalmers divisions from 5 to 25 per cent. Wednesday to improve the company's profit status.

AEA Sponsors Film Lecture on Berlin

Arthur Wilson will give a film lecture on "Berlin, the Island City," at 8 p.m. tonight at the James Madison Junior High School. The lecture is sponsored by the Appleton Education Association.

The film is a historical review of the reconstruction and life of the divided city.

The public is invited. There will be a small admission charge.

Sixty-Nine Men From Wisconsin's 32nd Division are training at the state military academy at Madison to help fill the need for officers. A group of the cadets are shown bursting from a classroom. The division goes into federal service Oct. 15.

Reynolds Says

Revision of Statute Is Necessary

Says 32nd Members Must be Given Proper Protection

MADISON (AP) — Atty. Gen. John Reynolds held today that a statutory revision is necessary to assure members of the 32nd Division "the same protection under our laws as that afforded to servicemen prior to this time."

The Wisconsin infantry division has been called to federal service Oct. 15. Since the call-up, Reynolds said, he had received inquiries from county veterans service officers expressing a fear that members of the National Guard unit would not be protected by the Soldiers' and Sailors' Civil Relief Act.

"Obvious Inconsistency" In an opinion forwarded to Gov. Gaylord Nelson, Reynolds said he noted an "obvious inconsistency" between state law and the federal act as to what constituted "military service."

"The phrase 'in military service' contained in the state statute apparently does not include those members of the Wisconsin National Guard or members of the Reserve forces who had not been on active duty during World War II," Reynolds said, adding: "It is my recommendation that our statute be amended to make sure that there is no question about the rights of Wisconsin law conforms to the federal act."

The Soldiers' and Sailors' Act suspends the enforcement of civilian liabilities for servicemen facing hardships in meeting such expenses as mortgage payments, taxes or insurance premiums.

urday and close Sunday with a noon luncheon.

The committee in charge of arrangements for the convention includes Clair Palfrey, Larry Gav-ped, Fred Thomas and Mrs. Ted Hoyer.

The WWAAC is a statewide social organization for the physically handicapped and their relatives and friends. It was organized in 1955 by a group of campers spending a two-week vacation at Camp Wawbeek, Wisconsin, a summer recreation center for the physically handicapped. The camp is owned and operated by the Wisconsin Easter Seal Society.

President Approves Mine Subsidy Bill

WASHINGTON, Oct. 4 (AP)—President Kennedy today approved a bill authorizing a 25 percent subsidy for the domestic production of lead and zinc.

The law provides \$125 million to be used for the purchase of 25 percent of the domestic production of lead and zinc. The law also provides for the purchase of 25 percent of the domestic production of lead and zinc.

Write Messages to Friends Using This Secret Code

BY CAPPY DICK

The adjoining drawing contains the complete key to a secret code. Figure 1. Complete the alphabet code boys and girls will find fun to use in writing letters to a dot at the point of each letter. If you clip out the drawing and put it in your wallet, you can get each of your friends to do the same, you will each have it whenever you want to send a message. Just take it out and translate the letters of the message into the secret signs.

Figure 2 shows how to code the numbers from 1 to 0. Draw a tic-tac-toe frame and then draw lines through it including a horizontal one through the center square (see Figure 2). In the spaces print the numbers from "N" to "V". Also in each

Make another tic-tac-toe frame of four lines and in it print the next nine letters of the alphabet.

Lesson in English

BY W. L. GORDON

Words often misused. Do you say, "Whom shall I say is calling?" Say, "Who shall I say is calling?"

Often mispronounced: Confuse Accent in on Elbow! Elbow, not the second.

Often misspelled: Tele a tele four e's, and only one 'a'.

Synonyms: Belief, faith, trust, confidence, evidence, reliance, assurance, proof, admission, conviction, opinion, concession.

Word study: Use a word three times and it is yours. Let us increase our vocabulary by mastering one word each day.

Today's word: abstruse. A word that is not clear or obvious, but is a thorough abstraction of the word's meaning. The word is necessary to remove the in and out of the word.
